in this issue of otolaryngologic clinics guest editors drs michael d seidman and marilene b wang bring their considerable expertise to the topic of complementary and integrative medicine and nutrition in otolaryngology many patients use health care approaches that are not part of conventional medical care or that may have origins outside of usual western practice while also using conventional health care in this issue top experts summarize the current knowledge of complementary and integrative medicine and nutrition as they relate to the care of patients in otolaryngology practices providing a comprehensive resource that physicians and allied health providers can rely on for accurate patient counseling contains 19 practice oriented topics including diet and health why otolaryngologists should be interested in psychedelic medicine probiotics for otolaryngology disorders sinus issues and natural alternatives cim and prevention of hearing loss cim and the voice natural alternatives and the common cold flu otitis media and more provides in depth clinical reviews on complementary and integrative medicine and nutrition in otolaryngology offering actionable insights for clinical practice presents the latest information on this timely focused topic under the leadership of experienced editors in the field authors synthesize and distill the latest research and practice guidelines to create clinically significant topic based reviews

in the united states cannabis is currently illegal but this book investigates how big pharmaceutical companies are looking at an end game of legality controlled by them it examines how the amsterdam scene has been transformed how home growers have been manipulated into using inferior techniques and how companies with help from the drug enforcement agency dea and big pharma are patenting cannabis strains for control and profit the leadership of the cannabis industry want to legalize

marijuana with taxation and regulation but the pharmaceutical industry cannot take over medical cannabis without first shutting down the scene today the book predicts that legalized production will be tightly controlled by major players using the IRS and DEA as a means of removing other growers regulation will also control the amount of tetrahydrocannabinol (THC) in each marijuana cigarette forcing stronger cannabis to be available to medical patients by prescription only a black market will still exist so people will still go to jail and the drug war will go on with history and explosive behind the scenes looks at big pharma collusion this book is both an exposé and an in depth look at the arc of freedom and probable control through use of pharmaceutical patents for marijuana

an exploration of the emergence of a new psychedelic spirituality in the work of Philip K. Dick, Terence McKenna and Robert Anton Wilson a study of the spiritual provocations to be found in the work of Philip K. Dick, Terence McKenna and Robert Anton Wilson *High Weirdness* charts the emergence of a new psychedelic spirituality that arose from the American counterculture of the 1970s these three authors changed the way millions of readers thought dreamed and experienced reality but how did their writings reflect as well as shape the seismic cultural shifts taking place in America in *High Weirdness* Erik Davis America's leading scholar of high strangeness examines the published and unpublished writings of these vital iconoclastic thinkers as well as their own life changing mystical experiences Davis explores the complex lattice of the strange that flowed through America's west coast at a time of radical technological political and social upheaval to present a new theory of the weird as a viable mode for a renewed engagement with reality

contemporary alchemist Dale Pendell completes his poetic study of botany chemistry spirituality psychology and history in a volume covering the composition and uses of visionary plants chapters including *Phantastica*, *Hypnotica* and *Telephorica*

explore the hallucinogenic plants the bringers of sleep and the bearers of distance

entering the world of psychedelics can be daunting and many aren't sure where to start research continues to expand and legalisation looms on the horizon for psychedelics like psilocybin the psychedelic handbook is a complete manual that explains the basics of psychedelics in a way that is accessible for the novice user or even just the psychedelic curious experienced clinical psychiatrist and bestselling author of dmt the spirit molecule dr rick strassman offers his expert advice for safely and effectively reaping the benefits of psychedelic medicine

mysticism is proving to be the chosen type of religion for future generations of believers in the west as traditional institutional religion continues to decline mystical thought is celebrated as a vital subversive alternative evidence for this religious cultural shift towards the mystical the experiential and indeed the creation centered can be found in bookstores most of which devote a large amount of shelf space to mystical themes and writers from the world religions while this shift is not new an increasing number of westerners are turning east because they find the fundamentally mystical thought of asian religious traditions appealing furthermore numerous westerners have actually become gurus and mystics within eastern traditions mysticisms east and west examines the worldwide phenomenon of mystical experience across the world religions in examining both christian and non christian expressions of mysticism this unique volume brings together a number of prominent evangelical scholars to analyze the central historical cultural and theological issues beginning in the east these studies in mystical experience gradually move to the west and to christian mysticism before concluding with a number of philosophically reflective essays examining the implications and nature of mysticism
