medard boss and the promise of psychotherapy reacquaints counselors psychotherapists and psychiatrists practicing today with the ideas of this remarkable figure in the history of twentieth century clinical psychology who quietly but radically deviated from the mainstream of standard thinking and practice of his time it presents an appreciation of boss the man as essential for understanding what psychotherapy has become and envisioning its original purpose this study revisits certain events in boss s life that have not been sufficiently appreciated but deeply affected the development of his psychoanalysis without the psyche da seinanalysis daseinsanalyse the book attempts to establish a terminology for therapy that is clear and consistent with heidegger s thought it provides a rich range of materials for study texts in translations a glossary of key terms and a comprehensive international bibliography that will be of use in developing an approach to therapy as boss envisioned it medard boss and the promise of psychotherapy concludes with some hints at just what such therapy might look like one that is based on the author s own practice it reflects what can be learned

from boss both what he said and published and perhaps more important what was left unsaid

preliminary material introduction cast of characters play setting of philosophers and madmen on the nature of humans
sigmund freud finding oneself in heidegger s early philosophy stemming the tide martin heidegger s critique of freudian
psychoanalysis a creative misunderstanding ludwig binswanger in search of a humanistic grounding for psychoanalysis
medard boss toward an integration of psychoanalysis and phenomenological ontology bibliography

betty cannon is the first to explore the implications of sartrean philosophy for the freudian psychoanalytic tradition
drawing upon sartre s work as well as her own experiences as a practicing therapist she shows that sartre was a fellow
traveler who appreciated freud s psychoanalytic achievements but rebelled against the determinism of his metatheory
the mind sartre argued cannot be reduced to a collection of drives and structures nor is it enslaved to its past as freud s
work suggested sartre advocated an existentialist psychoanalysis based on human freedom and the self s ability to
reshape its own meaning and value through the sartrean approach cannon offers a resolution to the crisis in
psychoanalytic metatheory created by the current emphasis on relational needs by comparing sartre with freud and
influential post freudians like melanie klein otto kernber margaret mahler d w winnicott heinz kohut harry stack sullivan
and jacques lacan she demonstrates why the sartrean model transcends the limitations of traditional freudian
metatheory in the process she adds a new dimension to our understanding of sartre and his place in twentieth century
philosophy

contemporary theory and practice of psychoanalysis

includes entries on such topics as psychoanalysis assertiveness training neurotransmitters and small sample statistics
