value stands as the ultimate trade off between customers and companies the value trail by dr marc sansó develops a disruptive new model of strategic analysis based around three areas of value appreciation concentration and predation a central issue for most managers is

how to capture customer insights and use them to deliver outstanding products and services that encompass an irresistible charm for the customer with a profitable business model this book allows the reader to understand how companies can set corporate goals and leverage internal resources to deliver successful value propositions offering a comprehensive approach to competitive analysis and strategy above everything it's about how to become valuable

security culture starts from the premise that even with good technical tools and security processes an organisation is still vulnerable without a strong culture and a resilient set of behaviours in relation to people risk hilary walton combines her research and her unique work portfolio to provide proven security culture strategies with practical advice on their implementation and she does so across the board from management buy in employee development and motivation right through to effective metrics for security culture activities hilary draws together all the best ideas on how you can embed security in the culture of your organisation including a blend of psychology risk and security to offer a security culture interventions toolkit from which you can pick and choose as you design your security culture programme whether in private or public settings

work organizations can lose their fitness and become sick just as people can just like people they may become both physically and behaviourally sick physically sick when plant and equipment breaks down or the money runs out behaviourally sick when the resources are badly managed or the staff become alienated gerry randell and john toplis towards organizational fitness addresses two main issues firstly how to investigate and manage problems involving people at work a task analogous to that of a medical doctor working with a sick patient secondly how to assess and develop the capability and fitness of an organization like a medical doctor who wishes to improve a patient's health the message of this book is clear that organizations should not proceed to change any of their policies procedures processes or practices until a systematic thorough diagnosis of the root cause underpinning the need to change has taken place the process of diagnosis that leads to a technically sound administratively convenient politically defensible and socially acceptable decision to change an organization in some way is fraught with difficulty towards

organizational fitness provides managers with a conceptual and practical path through this complex and difficult arena
