a new york times notable book a psychologist s gripping and thought provoking look at how and why our brains sometimes fail us steven pinker author of how the mind works in this intriguing study harvard psychologist daniel l schacter explores the memory miscues that occur in everyday life placing them into seven categories absent mindedness transience blocking misattribution suggestibility bias and persistence illustrating these concepts with vivid examples case studies literary excerpts experimental evidence and accounts of highly visible news events such as the o j simpson verdict bill clinton s grand jury testimony and the search for the oklahoma city bomber he also delves into striking new scientific research giving us a glimpse of the fascinating neurology of memory and offering insight into common malfunctions of the mind usa today though memory failure can amount to little more than a mild annoyance the consequences of misattribution in eyewitness testimony can be devastating as can the consequences of suggestibility among pre school children and among adults with false memory syndrome drawing upon recent neuroimaging research that allows a glimpse of the brain as it learns and remembers schacter guides his readers on a fascinating journey of the human mind library journal clear entertaining and provocative encourages a new appreciation of the complexity and fragility of memory the seattle times should be required reading for police lawyers psychologists and anyone else who wants to understand how memory can go terribly wrong the atlanta journal constitution a fascinating journey through paths of memory its open avenues and blind alleys lucid engaging and enjoyable jerome groopman md compelling in its science and its probing examination of everyday life the seven sins of memory is also a delightful book lively and clear chicago tribune winner of the william james book award

widely regarded as the standard reference in the field this handbook comprehensively examines all aspects of emotion and its role in human behavior the editors and contributors are foremost authorities who describe major theories findings methods and applications the volume addresses the interface of emotional processes with biology child development social behavior personality cognition and physical and mental health also presented are state of the science perspectives on fear anger shame disgust positive emotions sadness and other distinct emotions illustrations include seven color plates

memory there may be nothing more important to human beings than our ability to enshrine experience and recall it while philosophers and poets have elevated memory to an almost mystical level psychologists have struggled to demystify it now according to daniel schacter one of the most distinguished memory researchers

the mysteries of memory are finally yielding to dramatic even revolutionary scientific breakthroughs schacter explains how and why it may change our understanding of everything from false memory to alzheimer s disease from recovered memory to amnesia with fascinating firsthand accounts of patients with striking and sometimes bizarre amnesias resulting from brain injury or psychological trauma

from the start the soviet human space program had an identity crisis were cosmonauts heroic pilots steering their craft through the dangers of space or were they mere passengers riding safely aboard fully automated machines tensions between soviet cosmonauts and space engineers were reflected not only in the internal development of the space program but also in soviet propaganda that wavered between praising daring heroes and flawless technologies soviet space mythologies explores the history of the soviet human space program within a political and cultural context giving particular attention to the two professional groups space engineers and cosmonauts who secretly built and publicly represented the program drawing on recent scholarship on memory and identity formation this book shows how both the myths of soviet official history and privately circulating counter myths have served as instruments of collective memory and professional identity these practices shaped the evolving cultural image of the space age in popular soviet imagination soviet space mythologies provides a valuable resource for scholars and students of space history history of technology and soviet and post soviet history

are the canonical gospels historically reliable the four canonical gospels are ancient biographies narratives of jesus s life the authors of these gospels were intentional in how they handled historical information and sources building on recent work in the study of ancient biographies craig keener argues that the writers of the canonical gospels followed the literary practices of other biographers in their day in christobiography he explores the character of ancient biography and urges students and scholars to appreciate the gospel writers method and degree of accuracy in recounting the life and ministry of jesus keener s christobiography has far reaching implications for the study of the canonical gospels and historical jesus research he concludes that the four canonical gospels are historically reliable ancient biographies

memory matters juxtaposes in tripartite structure texts by a child of german bystanders wolf an austrian jewish child survivor klüger a daughter of jewish émigrés honigmann a daughter of an officer involved in the german resistance bruhns a granddaughter of a baptized polish jew maron and a granddaughter of german refugees from east prussia dückers placed outside of the distorting victim perpetrator jewish german man woman and war postwar binary it becomes visible that the texts neither complete nor contradict each other but respond to one another by means of inspiration reverberation refraction incongruity and ambiguity focusing on genealogies of women the book delineates a different cultural memory than the counting of male inflected generations and a male dominated holocaust and postwar literature canon it examines intergenerational conflicts and the negotiation of memories against the backdrop of a complicated mother daughter relationship that follows unpredictable patterns and provokes both discord and empathy schumann s approach questions the assumption that german gentile and german jewish postwar experiences are necessarily diametrically opposed i e respond to a negative symbiosis and uncovers intersections and continuities in addition to conflicts

this bestselling textbook brings the latest developments in psychology to students in a signature writing style that will inspire a lifelong love of science the authors respected researchers and writers of popular press titles invite students to join them on a tour of their favorite subject psychological science the new edition takes a closer look at the role psychology plays in our society with new material in chapter 2 that looks at the truth about psychological science the rate of replication in published studies and how critical thinking is foundational in science and life chapter 1 presents a new look at the history of the science with unexpected stories and new insights into its surprising origins each chapter has been fully updated with research and examples to portray a field that is constantly evolving and illuminating the world today combined with launchpad including the learningcurve adaptive quizzing system the new fifth edition is a powerful way to introduce students to the science of psychology

in recent decades memory has become a dominant topic in philosophy politics history science literature and the discussions of trauma and the holocaust this volume shows how the concept of memory has been used in different historical circumstances and how it has changed throughout the history of philosophy

a great read is just the beginning instructor and student evaluations from coast to coast attest to the dans captivating writing these award winning bestselling authors know how to enthrall students with the subject they love best psychology but in the new edition of introducing psychology they go even further to ensure that students won t commit one of the seven sins of memory forgetting what they just read special cue questions and critical thinking questions give students the opportunity to process psychological concepts and aid their understanding and memory and if you ve ever heard someone parrot a widespread misconception you ll welcome the new changing minds questions short scenarios which ask students to confront common misunderstandings of psychological phenomena now the book that students love to read is as unforgettable as ever dsm 5 updates available for fall 2014 classes this update version features new content from the dans in response to the release of the dsm 5 this new content is integrated into the text without changing pagination or the structure of the chapters a special dsm 5 supplement by the matthewnock new coauthor with the dans of psychology third edition is available for fall 2013 and spring and summer 2014 courses

by one of the world s foremost psychologists a groundbreaking and award winning study updated for the 20th anniversary with new research that delves into the complex behavior of memory

managing in the public sector entails an understanding of the interaction between three distinct dimensions administrative structures and processes organizations and their cultures and the skills and values of individual managers public managers must produce results that citizens and their representatives expect from their government while balancing these concerns within a constitutional scheme of governance in public management authors carolyn j hill and laurence e lynn jr show that constructing critical analyses and persuasive arguments is the principal tool for effectively managing in three dimensions students learn how to analyze and explain managerial strategies and decisions critically assessing real world case studies and building their own arguments four unique features further the book s approach and reinforce practical learning rule of law boxes showcase how public managers are affected by statutes regulations and court decisions concepts in action boxes show how sense making deliberation and decision making are common features in everyday news stories opinion pieces and government reports how the world works boxes aptly illustrate how human nature creates conundrums irony and surprise in the practice of public management a reminder that theory cannot fully explain the variety

and complexity of human and organizational behavior analysis and argument sections at the end of every chapter guide students in case analysis and help them build the elements of an argument claim reason evidence warrant acknowledgment and response rich with vivid ripped from the headlines examples of managerial situations as well as noteworthy scholarship public management underlines the challenges and art of balancing structure culture and craft
