a comprehensive and engaging introduction to psychology this is a textbook like no other always attuned to how the field is shaped by new research the tenth edition contains over a thousand new research citations plus new pedagogy beautiful fresh artwork and a section on time management to help students maximise their effectiveness

this edition contains the following changes hundreds of new research citations representing the most exciting and important new discoveries in our field organizational changes based on changes in the field for example the heavily revised consciousness modules now follow the neuroscience modules and are titled consciousness and the two track mind to reflect the dual processing and cognitive neuroscience themes fine tuned writing with countless small and large improvements in the way concepts are presented supported by the input and creative ideas of

hundreds of contributing instructors students and friends a sharp new art program that teaches more effectively continually improving coverage of cultural and gender diversity issues

david myers new partnership with coauthor c nathan dewall matches two dedicated educators and scholars each passionate about teaching psychological science through writing and interactive media with this new edition of the 1 bestselling psychology myers and dewall take full advantage of what an integrated text media learning combination can do new features move students from reading the chapter to actively learning online how would you know puts students in the role of scientific researcher and includes tutorials on key research design principles assess your strengths self tests help students learn a little more about themselves and include tips about nurturing key strengths these and other innovations rest on the same foundations that have always distinguished a new david myers edition exhaustive updating hundreds of new citations captivating writing and the merging of rigorous science with a broad human perspective that engages both the mind and heart

a delightful tour of the wonders of our humanity from david g myers the award winning professor and author of psychology s bestselling textbook how do we know ourselves is a thought provoking book about psychological science insights on our everyday lives david g myers shares astute observations and sharp witted wisdom to enable people to think smarter and to delight in the wonders of their lives myers s explorations range from why we so often fear the wrong things to how simply going for a walk with someone can increase rapport and empathy he covers why we repeatedly mishear song lyrics and how president obama s choice to wear only gray or blue suits supported his decision making focus and myers explores the powers and perils of our intuition explaining why anything can seem obvious once it happens each essay offers fresh insight into our sometimes bewildering but ever fascinating lives myers inspires us to grapple with the timeless question how do we know ourselves engaging and intellectually provocative he brings his wealth of knowledge from more than fifty years of teaching and writing about psychology to this lively and informative essay collection

the subject of christology has been a struggle for the church from the very beginning it has resulted in divisions crusades inquisitions persecutions and a wide range of creeds each group claims it possesses the truth a truth revealed to them a particular turn on belief they alone rightly proclaim in and jacob digged a well author pastor theodore m snider provides a commentary on religion where it s been where it s headed and how it fits in the modern world he seeks to answer this question why do we believe what we believe snider discusses how scientific and technological discoveries have changed not only our worldviews but also our godviews and how consciousness and brain research are altering the way we understand each other and how beliefs are formed he compiles a diverse amount of information on topics relevant to both secular and religious audiences including creationism evolution intelligent design and artificial intelligence through historical scientific cognitive and psychological avenues and jacob digged a well reminds us that natural may not be as clear as we once thought faith in the twenty first

century needs to look quite different from the past century

positive psychology the pursuit of understanding optimal human functioning is reshaping the scholarly and public views of how we see the science of psychology the encyclopedia of positive psychology provides a comprehensive and accessible summary of this growing area of scholarship and practice 288 specially commissioned entries written by 150 leading international researchers educators and practitioners in positive psychology covers topics of interest across all social sciences as well as business and industry the most current extensive and accessible treatment of the subject available topical primer clarifies basic constructs and processes associated with positive psychology will be useful to students teachers practitioners businesspeople and policy makers

announcing a new myers dewall text created specifically for the fall 2019 ap course framework you are likely familiar with the name dr david g myers now he and his new co author nathan dewall bring you a book that will allow you to use college board s new personal progress checks and dashboard more effectively this updated edition includes 100 of the new course content in the new nine unit structure all teacher and student resources will also be updated to correlate to the new student edition this includes the te trfd tb strive and launchpad everything will publish in summer 2020 such that you can use this new program for fall 2020 classes if you re not familiar with myers dewall texts you are in for a treat drs myers and dewall share a passion for the teaching of psychological science through wit humor and the telling of poignant personal stories individually identified in the text by the use of each author s initials dm and nd through close collaboration these authors produce a unified voice that will teach illuminate and inspire your ap students

how reliable is our intuition how much should we depend on gut level instinct rather than rational analysis when we play the stock market choose a mate hire an employee or assess our own abilities in this engaging and accessible book david g myers shows us that while intuition can provide us with useful and often amazing insights it can also dangerously mislead us drawing on recent psychological research myers discusses the powers and perils of intuition when judges and jurors determine who is telling the truth mental health workers predict whether someone is at risk for suicide or crime coaches players and fans decide who has the hot hand or the hot bat personnel directors hire new employees psychics claim to be clairvoyant or to have premonitions and much more

exploring social psychology first canadian edition is the long awaited and much anticipated alternative to the comprehensive myers spencer social psychology text with its simplified pedagogy and pithy 27 modules exploring social psychology gives instructors the ability and flexibility to cover the essential concepts in social psychology in a 12 week course canadian author steven smith brings a unique canadian perspective to this text matching david myers s renowned audience focused writing style he uses situational dilemmas anecdotal profiles of

canadian social psychologists and their research and examples taken from familiar aspects of the canadian experience to illustrate theories and concepts and engage and sustain readers interest and critical thinking skills while doing so in addition a series of interactive exercises e g surveys polls and scenarios and videos integrated with the text and im are available on the olc and encourage active class participation from both instructors and students the market has been asking us to adapt exploring social psychology for canadian students for several years and we are happy to finally deliver

the hardcover spiralbound edition of myers s new modular version of psychology 6 e
