his travels would ultimately lead to his study of all but one of the group found only in deepest turkestan and to the publication of his authoritative monograph on sparrows in 1988 his wry descriptions of the tribulations and unexpected pleasures of a traveller on four continents from the himalayas and thailand to africa and the americas with a good few islands in between are interspersed with observations and speculations on the biology of sparrows in a wide variety of habitats everywhere local officials and bird watchers warmed to the eccentric scot in pursuit of the little birds that nobody notices but which so often make their homes beside us the author s own photographs and delightful cartoons by euan dunn further paint the picture of this lifelong search
