chapter 13 manitoba civil service a quiet tradition in transition by ken rasmussen

canada s political structure runs contrary to north america s economic geography and the north south economic pull canada imported political and administrative institutions designed for a unitary state and its political leaders have struggled to make them work since the country was founded because of this many canadians their communities and their regions view themselves as victims to a greater degree than groups in other western democracies do our federal government has shown a greater willingness to apologize for historical wrongs than other western countries canada also outperforms other nations in helping victims make the transition to full participants in the country s political and economic life donald savoie maintains that canada continues to thrive despite the many shortcomings in its national political institutions and the tendency of canadians to see

themselves as victims and that our history and these shortcomings have taught us the art of compromise. Canada's constitution and its political institutions amplify rather than attenuate victimization; however, they have also enabled Canadians to manage the issue better than other countries. Canadians also recognize that the alternative to Canada is worse and this, more than anything else, continues to strengthen national unity drawing on his extensive experience in academe and as an advisor to governments. Savoie provides new insights into how Canada works for Canadians.

The new fourth edition of Canadian Politics continues the work of earlier editions in offering a comprehensive introduction to Canadian government and politics by a widely recognized and highly respected group of political scientists writing on subjects on which they are acknowledged experts. For this edition, the editors have reorganized the book into four sections: Part I: Citizenship, Identities and Values; Part II: The Canadian State; Part III: Civil Society, Democracy and Governance; and Part IV: Globalizing Trends and International Pressures. The fourth section, comprised of five chapters, develops a new focus for this edition by examining the diverse and increasingly important influences of globalization on the Canadian polity and system of governance. Of the twenty-three chapters, those retained from earlier editions have been entirely revised and updated; this edition adds twelve new authors and eleven completely new chapters. James Bickerton is professor of political science at St. Francis Xavier University. His publications include *Nova Scotia Ottawa and the Politics of Regional Development*, the *Almanac of Canadian Politics* with Munroe Eagles, Alain G.
