in the focused organization antonio nieto rodriguez shows you how fewer more effectively elected and managed projects are the key to strategic and long term success using his own research and work experience he explains how and why those organizations that focus on just a few key initiatives can perform significantly better than unfocused organizations not only financially but also in achieving their strategic objectives and motivating their staff the author introduces a new way of looking at a company through two very different and often conflicting dimensions running the business and changing the business what you add to one dimension you have to subtract from the other one finding the right balance between these two dimensions represents one of the major challenges to successful strategy execution becoming a focused organization involves a radical change in the way companies are organized and the way they select and manage projects the creation of a new culture the focused organization discusses the

characteristics that comprise a focused organization it describes key areas where a focused organization builds its levels of maturity provides examples of focused organizations that outperform the rest and explains in practical steps how all enterprises can become focused the book finishes with a unique and inspiring case study that transports us to the early days of the current business world through the main character benny white we learn how a business was conducted and how management evolved over decades with the introduction of business theories including project management

one prominent function of natural language is to convey information one peculiarity is that it does not do so randomly but in a structured way with information structuring formally recognized to be a component of grammar among all information structuring notions focus is one primitive needed to account for all phenomena focus manifestation in mandarin chinese and cantonese a comparative perspective aims to examine from a semantic perspective how syntactic structures and focus adverbs in mandarin chinese and semantic particles in cantonese conspire to encode focus structures and determine focus manifestation in chinese with both as tonal languages mandarin chinese and cantonese manifest different morpho syntactic configurations to mark focus a general principle governing focus marking in mandarin chinese and cantonese is given in the book which aims to give a better understanding on the underlying principles the two used to mark additive and restrictive meanings and related focus interpretations particular attention is also drawn to the co occurrence of multiple forms of restrictive and additive particles in cantonese including adverbs verbal suffixes and sentence final particles linearity has shown to be an important parameter to determine how focus is structured in cantonese this book is aimed at advanced graduate students researchers and scholars working on chinese linguistics syntax and semantics and comparative dialectal grammar

the volume intonation analysis modelling and technology covers the main aspects of intonation written by international researchers in the field following the introduction fourteen chapters are organised into five thematic sections overview of intonation prominence and focus boundaries and discourse intonation modelling and intonation technology each chapter is basically autonomous within a thematic section but the subject of several chapters extends over more than one thematic section the combination of a wide range of research areas as well as interdisciplinary approaches in the study of intonation makes this volume a unique contribution to the international scientific community basic knowledge of intonation and prosody is assumed in the context of linguistic and computational backgrounds readers may range from students of advanced undergraduate to postgraduate and research levels as well as individual researchers within a variety of disciplines such as experimental phonetics general and computational linguistics computer science and speech language engineering
