the passage from solid to liquid modernity has created a new and unprecedented setting for individual life pursuits confronting individuals with a series of challenges never before encountered social forms and institutions no longer have enough time to solidify and cannot serve as frames of reference for human actions and long term life plans so individuals have to find other ways to organise their lives they have to splice together an unending series of short term projects and episodes that don't add up to the kind of sequence to which concepts like career and progress could meaningfully be applied such fragmented lives require individuals to be flexible and adaptable to be constantly ready and willing to change tactics at short notice to abandon commitments and loyalties without regret and to pursue opportunities according to their current availability in liquid modernity the individual must act plan actions and calculate the likely gains and losses of acting or failing to act under conditions of endemic uncertainty zygmunt bauman's brilliant writings on liquid modernity have altered the way we think about the contemporary world in this short book he explores the sources of the endemic uncertainty which shapes our lives today and in so doing he provides the reader with a brief and accessible introduction to his highly original account developed at greater length in his previous books of life in our liquid modern times

modernity was supposed to be the period in human history when the fears that pervaded social life in the past could be left behind and human beings could at last take control of their lives and tame the uncontrolled forces of the social and natural worlds and yet at the dawn of the twenty first century we live again in a time of fear whether its the fear of natural disasters the fear of environmental catastrophes or the fear of indiscriminate terrorist attacks we live today in a state of constant anxiety about the dangers that could strike unannounced and at any moment fear is the name we give to our uncertainty in the face of the dangers that characterize our liquid modern age to our ignorance of what the threat is and our incapacity to determine what can and can t be done to counter it this new book by zygmunt bauman one of the foremost social thinkers of our time is an inventory of liquid modern fears it is also an attempt to uncover their

common sources to analyse the obstacles that pile up on the road to their discovery and to examine the ways of putting them out of action or rendering them harmless through his brilliant account of the fears and anxieties that weigh on us today bauman alerts us to the scale of the task which we shall have to confront through most of the current century if we wish our fellow humans to emerge at its end feeling more secure and self confident than we feel at its beginning

this topical new book by zygmunt bauman explores the notion of identity in the modern world as we grapple with the insecurity and uncertainty of liquid modernity bauman argues that our socio political cultural professional religious and sexual identities are undergoing a process of continual transformation identities the world over have become more precarious than ever we live in an era of constant change and disposability whether it s last season s outfit or car or even partner and our identities as a result have become transient and deeply elusive in a world of rapid global change where national borders are increasingly eroded our identities are in a state of continuous flux identity a notion that by its very nature is elusive and ambivalent has become a key concept for understanding the changing nature of social life and personal experience in our contemporary liquid modern age in this brief book zygmunt bauman explains compellingly why this is so

there is nothing new about evil it has been with us since time immemorial but there is something new about the kind of evil that characterizes our contemporary liquid modern world the evil that characterized earlier forms of solid modernity was concentrated in the hands of states claiming monopolies on the means of coercion and using the means at their disposal to pursue their ends ends that were at times horrifically brutal and barbaric in our contemporary liquid modern societies by contrast evil has become altogether more pervasive and at the same time less visible liquid evil hides in the seams of the canvass woven daily by the liquid modern mode of human interaction and commerce conceals itself in the very tissue of human cohabitation and in the course of its routine and day to day reproduction evil lurks in the countless black holes of a thoroughly deregulated and privatized social space in which cutthroat

competition and mutual estrangement have replaced cooperation and solidarity while forceful individualization erodes the adhesive power of inter human bonds in its present form evil is hard to spot unmask and resist it seduces us by its ordinariness and then jumps out without warning striking seemingly at random the result is a social world that is comparable to a minefield we know it is full of explosives and that explosions will happen sooner or later but we have no idea when and where they will occur in this new book the sequel to their acclaimed work *moral blindness* zygmunt bauman and leonidas donskis guide the reader through this new terrain in which evil has become both more ordinary and more insidious threatening to strip humanity of its dreams alternative projects and powers of dissent at the very time when they are needed most

in this ground breaking book shaun best analyses the intellectual knowledge production of zygmunt bauman and his rise to academic stardom in the english speaking world by evaluating the relation between his biography the contexts in which he found himself and why his intellectual creativity is admired by so many people bauman has an interesting contested biography and underwent a number of intellectual shifts from the early stages of his academic career as marxist bauman moved on and for almost ten years he was associated with postmodernity from 1989 1997 but in 2000 he decided to distance himself from postmodernism and rebrand his approach to understanding the contemporary world as liquid modernity best shows how bauman developed his canonised status becoming an intellectual guru in the uk and in australia despite being largely ignored by the academic community in the united states and central europe rather than investigating bauman s academic output as a demonstration of his creative genius best argues that most academic output involves the interplay of multiple factors and this book evaluates the influences on both intellectual choices and the social factors or contexts that led bauman to attach himself to different sets of ideas during his academic career

based in sociologist zygmunt bauman s theory of liquid modernity this volume describes and critiques key aspects and practices of liquid education education as market driven consumption short life span of useful knowledge overabundance of information through a systematic comparison with ancient greek *paideia* and medieval university education producing a sweeping analysis of the history and philosophy of education for the purpose of understanding current higher education positing a more holistic alternative model in which students are embedded in a learning community that is itself embedded in a larger society if liquid modernity has left a vacuum where according to bauman the pilot s cabin is empty this volume argues that no structure is better positioned to fill this vacuum than the university and outlines a renewed

vision of social transformation through higher education

in its original formulation culture was intended to be an agent for change a mission undertaken with the aim of educating the people by bringing the best of human thought and creativity to them but in our contemporary liquid modern world culture has lost its missionary role and has become a means of seduction it seeks no longer to enlighten the people but to seduce them the function of culture today is not to satisfy existing needs but to create new ones while simultaneously ensuring that existing needs remain permanently unfulfilled culture today likens itself to a giant department store where the shelves are overflowing with desirable goods that are changed on a daily basis just long enough to stimulate desires whose gratification is perpetually postponed in this new book zygmunt bauman one of the most brilliant and influential social thinkers of our time retraces the peregrinations of the concept of culture and examines its fate in a world marked by the powerful new forces of globalization migration and the intermingling of populations he argues that europe has a particularly important role to play in revitalizing our understanding of culture precisely because europe with its great diversity of peoples languages and histories is the space where the other is always one's neighbour and where each is constantly called upon to learn from everyone else

this liquid modern world of ours like all liquids cannot stand still and keep its shape for long everything keeps changing the fashions we follow the events that intermittently catch our attention the things we dream of and things we fear and we the inhabitants of this world in flux feel the need to adjust to its tempo by being flexible and constantly ready to change we want to know what is going on and what is likely to happen but what we get is an avalanche of information that threatens to overwhelm us how are we to sift the information that really matters from the heaps of useless and irrelevant rubbish how are we to derive meaningful messages from senseless noise we face the daunting task of trying to distinguish the important from the insubstantial distil the things that matter from false alarms and flashes in the pan nothing escapes scrutiny so stubbornly as the ordinary things of everyday life hiding in the light of deceptive and misleading familiarity to turn them into objects of attention and scrutiny they must first be torn out from that daily routine the apparently familiar must be made strange this is precisely what zygmunt bauman seeks to do in these 44 letters each tells a story drawn from ordinary lives but tells it in order to reveal an extraordinariness that we might otherwise overlook arresting revealing disconcerting these snapshots of life by the most brilliant analyst of our liquid modern world will appeal to a wide readership
