this book contributes to empirical finance by comprehensively analysing an emerging stock market employing modern econometric techniques the most central and fascinating area of financial economics is probably the efficiency and volatility of the stock market however studies of emerging economies are relatively limited in this area the rising importance of stock market globalisation has increased interest in emerging markets this book leads the way for an emerging market perspective as it explores the issue of efficiency and volatility of the stock market in bangladesh by employing both univariate and multivariate models using daily data of past share prices and monthly data of macroeconomic variables and the stock index respectively this book offers an understanding of the crucial issues facing developing economies particularly emerging stock markets with similar characteristics to those of bangladesh this book undoubtedly provides valuable information for investors in the stock market graduate post graduate and phd students in quantitative financial economics academics in economics and finance and policymakers in developing economies

the dramatic shift of the indian subcontinent once highly integrated for a millennium until its partition in 1947 into one of the world s least integrated regions raises questions about this swift transformation the formation of the south asian association for regional cooperation saarc by the newly partitioned states aimed at fostering collaboration however initial efforts proved futile prompting a comparison with the successful dynamics of the european union eu and the association of southeast asian nations asean drawing on his experience in the bangladesh foreign ministry and as a world bank consultant ambassador tariq karim s book provides insights into south asian regional cooperation it traverses history analyses cooperation models examines various dimensions of collaboration and envisions extending sub regional cooperation to the broader bay of bengal region ambassador karim s narrative highlights contrasts between saarc s challenges and the achievements of the eu and asean emphasising key factors that differentiate successful regional initiatives this book not only serves as a documentation of historical shifts but also envisages a future where the indian subcontinent and its neighbouring regions embrace enhanced collaboration for mutual benefit

since the group of least developed countries ldcs was identified in 1971 only five countries have graduated from the group all of which are characterised by small size or population the projections are that the next decade will see a rapid increase in the pace of graduation with bangladesh in particular poised to be one of the largest countries in terms of its economy and population yet to leave the group while previously many ldcs viewed the prospect of

graduation with some apprehension fearing significant erosion of international support increasingly the move is being seen as a more positive landmark this book aims to articulate appropriate strategies and initiatives to help bangladesh to maintain its developmental momentum and to prepare for a sustainable graduation in 2024 in doing so the book explores themes such as key analytical issues of the ldc graduation paradigm smooth transition and structural transformation and post graduation challenges and opportunities further against the backdrop of gross national income per capita the human assets index and economic vulnerability index goals required for graduation the sustainable development goals sdgs set by the 2030 agenda will also be in the process of implementation whilst some feel that the two agendas might be in conflict the book teases out some of the important synergies which can be drawn when ldcs are undertaking the journey of graduation in the era of the sdgs the book also takes into cognisance the uncertain external environment and the emerging global scenario within which bangladesh s graduation is to take place conceptual discourse around ldc graduation and the particular narrative around bangladesh s journey towards ldc graduation will be of interest not only to scholars of bangladesh but also to researchers and policymakers with an interest in ldc graduation for other countries facing similar challenges

following successive international legal verdicts bangladesh is now an accredited maritime state possessing a spacious territorial sea and an extended continental shelf with a maritime zone almost equalling its land borders a window of opportunity has opened for the country to realise its developmental aspirations yet it faces numerous challenges many of which are entwined this book is a detailed analysis of bangladesh s maritime strategy it charts the country s maritime legacies including disputes with both myanmar and india and analyses the contributions of the leadership in the maritime territorial gains the author examines bangladesh s need to consolidate these newly reclaimed gains whilst exploring the unrelenting interest of major global power players in maintaining maritime resource exploitation navigation and security finally the author demonstrates how the country needs to embrace the notional principles of sustainable development of its ocean economy to utilize its resources and how it has since been coming to grips with the emerging concept of blue economy to enhance its enduring national development the first systematic study on bangladesh s maritime policy and the country s importance in the emerging geopolitical rivalry in the indian ocean this book will be of interest to academics in the field of south asian and indian ocean politics

half a century after independence bangladesh has achieved impressive progress the country has transformed from one of the poorest nations into a global textile manufacturing hub capable of meeting its medical needs almost entirely through domestic pharmaceutical production
