This book takes a critical approach to examining British and Italian occupational health and safety enforcement policies and questions the legal and political principles that underpin them. The book undertakes a comparative critical analysis of these two jurisdictions' health and safety regulatory enforcement practices by focusing on the causes and consequences of the under-criminalisation of these crimes. It explores the fundamentals of these two jurisdictions' criminal justice systems and political practices, policies and traditions, and exposes how these translate into pragmatic social inequality and injustice for victims of occupational health and safety crimes. And more generally, citizens' findings are drawn from qualitative interviews conducted with front-line occupational health and safety enforcement officers. This book offers an account of the challenges encountered when attempting to scrutinise public institutions responsible for policing crimes of the powerful. The comparison of the political and criminal justice system practices, policies and traditions of the British and Italian legal systems offer a valuable critical contribution to the Anglophone literature on the subject and more generally on regulatory enforcement policies and practices.

Lo sviluppo locale di una comunità e di un territorio non si realizza solo per effetto della acquisizione e della concentrazione delle risorse economiche per sostenere e alimentare un macro sistema di welfare ma anche e soprattutto per ampliare le possibilità per una comunità di accedere a più diffuse opportunità di wellbeing. Al centro ci sta quindi il sentirsi bene della persona che amplia e potenzia le sue relazioni, intensifica la sua comunicazione con la comunità in cui si riconosce, orienta e in un certo senso adatta e specializza le sue abilità che gli consentono di partecipare ai sistemi strumentali della vita sociale che vanno dalla produzione di beni e servizi alla produzione di loisir. Diviene di conseguenza centrale una nozione di sviluppo locale in cui i sistemi di relazioni intersoggettive, la reciprocità delle
