founded on the paradox that all things are poisons and the difference between poison and remedy is quantity the determination of safe dosage forms the base and focus of modern toxicology in order to make a sound determination there must be a working knowledge of the biologic mechanisms involved and of the methods employed to define these mechanisms while the vastness of the field and the rapid accumulation of data may preclude the possibility of absorbing and retaining more than a fraction of the available information a solid understanding of the underlying principles is essential extensively revised and updated with four new chapters and an expanded glossary this fifth edition of the classic text principles and methods of toxicology provides comprehensive coverage in a manageable and accessible format new topics include toxicopanomics plant and animal poisons information resources and non animal testing alternatives emphasizing the cornerstones of toxicology people differ dose matters and things change the book begins with a review of the history of toxicology and followed by an explanation of basic toxicological principles agents that cause toxicity target organ toxicity and toxicological testing methods including many of the test protocols required to meet regulatory needs worldwide the book examines each method or procedure from the standpoint of technique and interpretation of data and discusses problems and pitfalls that may be associated with each the addition of several new authors allow for a broader and more diverse treatment of the ever changing and expanding field of toxicology maintaining the high quality information and organizational framework that made the previous editions so successful principles and methods of toxicology fifth edition continues to be a valuable resource for the advanced practitioner as well as the new disciple of toxicology

this book does what it says on the tin stating the corpus of tort law as a body of principles undertaken for the first time in english tort law this book describes the law of tort concisely accessibly and accurately and with both depth and detail

this collection of essays breaks new ground in bringing together scholars from a range of disciplines to focus on the nature and status of principles in early modern thought a comprehensive introduction argues that there is a natural fault line between propositional and ontological principles and establishes a clear understanding of how the term principle might be used and of the kinds of questions that might be raised about its usage with contributions from leading scholars including daniel garber william newman and sophie roux this

book will be of interest to scholars of early modern philosophy the history of early modern thought and the history and philosophy of science

an increasing number of states have entered the market looking to invest resources in foreign assets this emergence of states acting as investors managing the wealth of a nation and competing in the marketplace with private investors has attracted growing and wide attention this book is the first in depth analysis of the international tax aspects of sovereign wealth investors and serves as a comprehensive guide to designing tax policy from a source state perspective toward inbound sovereign wealth investment drawing on a wide range of relevant sources including international instruments domestic tax legislation administrative practice international case law and the writings of highly qualified publicists the author fully addresses the following aspects of the subject the definition functions legal form governance home state tax status etc of sovereign wealth investors tax policy considerations and objectives i e neutrality equity and international attractiveness from a source state perspective vis à vis foreign sovereign wealth investors and the potential impact of the sovereign immunity principle bilateral tax treaties and european union law on source states ability to achieve these tax policy objectives in relation to foreign sovereign wealth investors the conceptual framework developed by the author will greatly assist source states in introducing new tax policy or in evaluating or reconsidering their existing tax policy vis à vis foreign sovereign wealth investors in addition practitioners academics and home states of sovereign wealth investors will welcome this first authoritative analysis of an important but insufficiently understood subject in international tax
