accessibly written writing systems a linguistic approach provides detailed coverage of all major writing systems of historical or structural significance with thorough discussion of structure history and social context as well as important theoretical issues the book examines systems as diverse as chinese greek and maya and each writing system is presented in the light of four major aspects of writing history and development internal structure the relationship of writing and language and sociolinguistic factors the volume is extensively illustrated and the glossary of technical terms exercises and further reading suggestions that accompany each chapter make writing systems a valuable resource for students in linguistics and anthropology

the study and teaching of english literature is generally regarded as one of the central disciplines in the modern university yet for much of its history it struggled to gain academic legitimacy and was frequently derided as a soft option its early professors responded by emphasizing its scholarly character foregrounding philology and literary history in ways that marked the syllabus far into the twentieth century stefan collini provides here the first full account of the discipline s development from its late eighteenth century beginnings up to the early 1960s paying special attention to institutional settings he challenges numerous

assumptions about the character of universities in the nineteenth and early twentieth centuries from the detailed exploration of syllabuses exam papers and other institutional records the impact of literary criticism is revealed to be later and more partial than is commonly assumed rather than seeing the early teaching of english literature as a substitute for religion or a means to soften class conflict collini emphasizes the role of ideals of learnedness and scholarship as well as of external factors such as opportunities for employment in the civil service and secondary school teaching there are full discussions of the parts played by such figures as john churton collins a c bradley george saintsbury and walter raleigh together with sceptical analyses of the decisive significance usually attributed to matthew arnold t s eliot i a richards and f r leavis separate chapters are devoted to neglected aspects of the story such as the role of classics the importance of the subject for women s higher education and the connections with english teaching in schools drawing on extensive use of institutional archives and records as well as the writings of contemporary participants the book offers a vivid and wide ranging history of english as discipline and its centrality across academic literary cultural and educational life over the past two year hundred years as well as a resounding testament to its continued importance and relevance today

this is a series of four substantial volumes designed to demonstrate the range of interests of the several protestant nonconformist traditions from the time of their separatist harbingers in the 16th century to the end of the 20th century it represents a major project of the association of denominational historical societies and cognate libraries of such topics as theology philosophy worship socio political concerns and so on prepared by a team of 12 editors all of whom are expert in their areas and drawn from a number of the relevant traditions it should provide a much needed comprehensive view of nonconformity told largely in the words of those whose story it is nonconformity through contemporary writings it provides a lively insight into the life and thought of the methodists congregationalists baptists quakers unitarians and other groups that formed pieces in the diverse mosaic of the 19th century chapels each aspect of nonconformity has an introductory discussion which includes a guide to the secondary literature on the subject and each passage from a primary source is put in context
