action research and classroom instruction

although educators often disagree about many aspects of literacy there appears to be universal agreement that the primary purpose for reading is to comprehend text yet defining comprehension has not been easy synonyms for comprehension instruction include critical thinking understanding making meaning reasoning and higher level thinking skills to complicate matters we're asked to assess an entity in which there is no agreed upon definition forced to focus on comprehension separately in order to explain and discuss it teachers have long used superficial methods to monitor students learning my purpose for writing this book is not to engage in the battle over defining comprehension nor to detail best practices for assessing learning it is my goal to help students develop a sense of conscious control over the reading process using a set of strategies that they can adapt when reading any text these include retelling summarizing making and confirming predictions and asking good questions before during and after reading activities are included for explicitly modeling and teaching these very strategies also included are activities for developing skills that lead to flexible strategy use skills are generally thought to be less complex than strategies almost embedded in strategy use for instance in order to successfully summarize one must be able to determine importance an effective retelling includes the ability to sequence and pay attention to details skills are generally not by themselves sufficient to accomplish the complex jobs required of mature readers the book is written for teachers in grades k-5 not all activities will be appropriate for every grade please refer to your state standards to determine which of these comprehension strategies your students need to use independently as they read no longer are we operating under the conventional wisdom that students learn to read in the primary grades and then read to learn in the intermediate years keep in mind that there is no hierarchical fashion in which to teach these skills and strategies in other words we don't teach predicting before summarizing etc since not all text is created equal we look at which lesson the text in hand lends itself to and select our activities accordingly whether this book is used to supplement any commercial programs you may be using or it becomes the source for most of your teaching if we continue to set our expectations high and support our students in reaching these goals the pay off will be immense

a series of books using modelling guided and independent practice to teach students strategies they can use to develop different reading comprehension skills

this book incorporates the strongest and most current research available to help teachers actively involve their students in the reading comprehension process teachers receive expert guidance in a step by step format that clearly states and fully illustrates each of the 50 strategies it delivers must have information that enables teachers to assess their students current strategies a six section organization enables teachers to easily access appropriate strategies for specific teaching objectives word and sentence level comprehension paragraph level comprehension integrating background knowledge holistic comprehension self monitoring strategies and assessment to inform instruction for elementary school teachers

a series of books using modelling guided and independent practice to teach students strategies they can use to develop different reading comprehension skills

reading in a second language sets the testing and teaching of reading against a theoretical

background discussing research from both applied linguistics and cognitive psychology where possible it focuses on research into second language readers and distinguishes different kinds of reading particularly expeditious as opposed to careful reading and emphasizes the validity of each sandy urquhart and cyril weir relate testing and teaching discussing similarities and differences providing a comprehensive survey of both methods with the emphasis on those which have been substantiated or supported by research evidence finally the book proposes specific research topics and detailed advice on how to construct tests of language for academic purposes and suggestions for further research
