many interpreters read John 6 as a contrast between Jesus and Judaism. Jesus repudiates Moses and manna and offers himself as an alternative. In contrast, this monograph argues that John 6 places elements of the Exodus story in a positive and constructive relationship to Jesus. This reading leads to an understanding of John as an interpreter of Exodus who, like other contemporary Jewish interpreters, sees current experiences in light of the Exodus story. This approach to John offers new possibilities for assessing the gospel's relationship to Jewish scripture, its dualism, and its metaphorical language.

Pushkin's monument and allusion is the first aesthetic analysis of Russia's most famous monument to its greatest poet, Alexander Pushkin.

This is an open access book. 2024 International Conference on Humanities Arts and Cultural Industry Development (HACID 2024) was held in Qingdao, China, during May 24-26, 2024. This work focuses on translators and readers as participants in the communicative process where the use of allusions is one type of problem to be solved. Reader response tests and interviews with professional translators highlight the difficulty in conveying the function and meaning of allusive passages to readers in another culture. The many examples discussed also provide materials for translation teachers wanting to address the translation of allusions in their courses.

Allusion purpose explores the impact of allusions—references to history, mythology, and literature—on enriching written content. This book examines how writers strategically use these rhetorical devices to add layers of meaning and connect with readers. Allusions aren't just ornamental; they shape our understanding of texts. For example, referencing the story of Icarus can subtly warn against hubris, adding depth beyond the literal words. The book uniquely combines theory with practical application, equipping readers with tools to identify, interpret, and use allusions effectively. It progresses from

introducing the mechanics of allusion to exploring historical mythological and literary allusions each section including case studies to demonstrate practical applications understanding historical allusions for instance might reveal how past events are reinterpreted enhancing critical reading skills and fostering cultural awareness this book emphasizes that understanding allusions empowers both writers and readers by analyzing literary texts and delving into cultural contexts allusion purpose guides readers through the multifaceted world of intertextuality enhancing academic writing and communication skills ultimately it helps readers appreciate the power of shared knowledge in shaping our understanding of literature and communication

the work of writing closed captions for television and dvd is not simply transcribing dialogue as one might assume at first but consists largely of making rhetorical choices for sean zdenek when captioners describe a sound they are interpreting and creating contexts they are assigning significance they are creating meaning that doesn t necessarily exist in the soundtrack or the script and in nine chapters he analyzes the numerous complex rhetorical choices captioners make from abbreviating dialogue so it will fit on the screen and keep pace with the editing to whether and how to describe background sounds accents or slurred speech to nonlinguistic forms of sound communication such as sighing screaming or laughing to describing music captioned silences as when a continuous noise suddenly stops and sarcasm surprise and other forms of meaning associated with vocal tone throughout he also looks at closed captioning style manuals and draws on interviews with professional captioners and hearing impaired viewers threading through all this is the novel argument that closed captions can be viewed as texts worthy of rhetorical analysis and that this analysis can lead the entertainment industry to better standards and practices for closed captioning thereby better serve the needs of hearing impaired viewers the author also looks ahead to the work yet to be done in bringing better captioning practices to videos on the internet where captioning can take on additional functions such as enhancing searchability while scholarly work has been done on captioning from a legal perspective from a historical perspective and from a technical perspective no one has ever done what zdenek does here and the original analytical models he offers are richly interdisciplinary drawing on work from the fields of technical communication rhetoric media studies and disability studies

essay from the year 2002 in the subject russian slavic languages grade a university of canterbury school of european culture and languages course seminar language english abstract before we look at individual poems and the many allusions to greek mythology it is necessary as always it seems to make a few remarks on translation afterwards it might be helpful to ask ourselves a few general questions as to why and to what effect authors have used or are still using myth in their writing so that we can then try to establish which of these approaches is closest to mandelstam s use of greek mythology fortunately mandelstam has commented widely on general questions of poetics in his essays which often take the form of reviews of other authors and their shortcomings by then applying these criteria to mandelstam s own work and thus knowing his poetic aspirations his poetry should appear less enigmatic especially as greek myth lies at the centre of mandelstam s poetic thought an analysis of these statements is a valid and useful approach in order to gain
