bicycling maximum overload for cyclists is a radical strength
based training program aimed at increasing cycling speed athletic
longevity and overall health in half the training time rather than
improving endurance by riding longer distances you ll learn how to
do it by reducing your riding time and adding heavy strength and
power training traditionally cyclists and endurance athletes have
avoided strength and power training believing that the extra
muscle weight will slow them down but authors jacques devore and
roy m wallack show that exactly the opposite is true the maximum
overload program uses weightlifting to create sustainable power
and improved speed while drastically reducing training time and
eliminating the dreaded deterioration that often occurs during the
second half of a ride a 40 minute maximum overload workout done
