powerful barack obama searing new york times how do you comfort a man who has just lost his best friend how does it feel to see
fear in your wife s eyes what does it mean to come home in one of the most acclaimed and celebrated collections of stories for years

redeployment takes readers to the frontlines of the wars in iraq asking us to understand what happened there and what happened to the soldiers who returned

expansive explosive and epic marlon james a courageous book new york times book review a barack obama book of the year 2020 neither mason a us special forces medic nor lisette a foreign correspondent has emerged from america s long wars in iraq and afghanistan unscathed yet for them war still exerts a terrible draw the noble calling the camaraderie the life and death stakes where else in the world can such a person go all roads lead to colombia where the us has partnered with the local government to stamp out a vicious civil war and keep the predatory narco gangs at bay mason is ready for the good war and lisette is more than ready to cover it

please note this is a companion version not the original book sample book insights 1 i have always been drawn to the stories of violence in iraq even though i was never in any danger myself i feel that by not talking about these experiences we are failing to process them 2 i was given two weeks leave halfway through my deployment and i went home to new york at one point i walked down madison avenue near where it intersects with broadway suddenly i felt the urge to weep the images came back not as photographs but as living memories 3 i was not there when the photos were taken but i still remember the emotions they sparked in me i feel guilty about the sorrow i feel because i know it is manufactured and i feel guilty about the sorrow i do not feel because it is owed it is the barest beginning of what is owed to the fallen 4 the day osama bin laden died i learned that one of my former marines was permanently blind the iraq war and the afghanistan surge were both based on the success of the iraq surge which was an outgrowth of previous iraq policy

owen w gilman jr stresses the us experience of war in the twenty first century and argues that wherever and whenever there is war there will be imaginative responses to it especially the recent wars in afghanistan and iraq since the trauma of september 11 the

experience of americans at war has been rendered honestly and fully in a wide range of texts creative nonfiction and journalism film poetry and fiction these responses gilman contends have packed a lot of power and measure up even to world war ii s literature and film like few other books gilman s volume studies these new texts among them kevin powers s debut novel the yellow birds and phil klay s short stories redeployment along with the films the hurt locker american sniper and billy lynn s long halftime walk for perspective gilman also looks at some touchstones from the vietnam war compared to a few of the big vietnam books and films this new material has mostly been read and watched by small audiences and generated less discussion gilman exposes the circumstances in american culture currently preventing literature and film of our recent wars from making a significant impact he contends that americans inclination to demand distraction limits learning from these compelling responses to war in the past decade according to gilman where there should be clarity and depth of knowledge we instead face misunderstanding and the anguish endured by veterans betrayed by war and our lack of understanding

acts of faith and imagination wagers that fiction written by catholic authors assists readers to reflect critically on the question what is faith to speak of a person s faith life is to speak of change and development as a narrative form literature can illustrate the dynamics of faith which remains in flux over the course of one s life because human beings must possess faith in something whether religious or not it inevitably has a narrative structure faith ebbs and flows flourishes and decays develops and stagnates through an exploration of more than a dozen catholic authors novels and short stories brent little argues that catholic fiction encourages the reader to reflect upon their faith holistically that is the way faith informs one s affections and how a person conceives and interacts with the world as embodied beings amidst the diverse stories of modern and contemporary fiction a consistent pattern emerges catholic fiction portrays faith at its most fundamental often unconscious level as an act of the imagination faith is the way one imagines themselves others and creation a person s primary faith conditions how they live in the world regardless of the level of conscious reflection and regardless of whether this

is a religious faith acts of faith and imagination investigates the creative depth and vitality of the catholic literary imagination by bringing late modern catholic authors into dialogue with more contemporary ones readers will then consider well known works such as those by graham greene flannery o connor and muriel spark in the fresh light of contemporary stories by toni morrison alice mcdermott uwem akpan and several others

america's founding fathers feared that a standing army would be a permanent political danger yet the u s military has in the 250 years since become a bulwark of democracy kori schake explains why in this compelling history of civil military relations from independence to the challenges of the present the book begins with general washington's vital foundational example of subordination to elected leaders during the revolutionary war schake recounts numerous instances in the following century when charismatic military leaders tried to challenge political leaders and explains the emergence of restrictions on uses of the military for domestic law enforcement she explores the crucial struggle between president andrew johnson and congress after lincoln's assassination when ulysses grant had to choose whether to obey the commander in chief or the law and chose to obey the law and she shows how the professionalization of the military in the twentieth century inculcated norms of civilian control the u s military is historically anomalous for maintaining its strength and popularity while never becoming a threat to democracy schake concludes by asking if its admirable record can be sustained when the public is pulling the military into the political divisions of our time

longing for an absent god unveils the powerful role of faith and doubt in the american literary tradition nick ripatrazone explores how two major strands of catholic writers practicing and cultural intertwine and sustain each other ripatrazone explores the writings of devout american catholic writers in the years before the second vatican council through the work of flannery o connor j f powers and walker percy those who were raised catholic but drifted from the church such as the catholic educated don delillo and cormac mccarthy the convert toni morrison the mass going thomas pynchon and the ritual driven louise erdrich and a new crop of faithful american catholic

writers including ron hansen phil klay and alice mcdermott who write catholic stories for our contemporary world these critically acclaimed and award winning voices illustrate that catholic storytelling is innately powerful and appealing to both secular and religious audiences longing for an absent god demonstrates the profound differences in the storytelling styles and results of these two groups of major writers but ultimately shows how taken together they offer a rich and unique american literary tradition that spans the full spectrum of doubt and faith

startling figures is about catholic fiction in a secular age and the rhetorical strategies catholic writers employ to reach a skeptical indifferent or even hostile audience although characters in contemporary catholic fiction frequently struggle with doubt and fear these works retain a belief in the possibility for transcendent meaning and value beyond the limits of the purely secular individual chapters include close readings of some of the best works of contemporary american catholic fiction which shed light on the narrative techniques that catholic writers use to point their characters and their readers beyond the horizon of secularity and toward an idea of transcendence while also making connections between the widely acknowledged twentieth century masters of the form and their twenty first century counterparts this book is focused both on the aspects of craft that catholic writers employ to shape the reader s experience of the story and on the effect the story has on the reader one recurring theme that is central to both is how often catholic writers use narrative violence and other similar disorienting techniques in order to unsettle the reader these moments can leave both characters within the stories and the readers themselves shaken and unmoored and this o connell argues is often a first step toward the recognition and even possibly the acceptance of grace individual chapters look at these themes in the works of flannery o connor j f powers walker percy tim gautreaux alice mcdermott george saunders and phil klay and kirstin valdez quade

from the national book award winning author of redeployment and missionaries an astonishing fever graph of the effects of twenty years of war in a brutally divided america when phil klay left the marines a decade ago after serving as an officer in iraq he found himself a

part of the community of veterans who have no choice but to grapple with the meaning of their wartime experiences for themselves and for the country american identity has always been bound up in war from the revolutionary war of our founding to the civil war that ended slavery to the two world wars that launched america as a superpower what did the current wars say about who we are as a country and how should we respond as citizens unlike in previous eras of war relatively few americans have had to do any real grappling with the endless invisible conflicts of the post 9 11 world in fact increasingly few people are even aware they are still going on it is as if these wars are a dark star with a strong gravitational force that draws a relatively small number of soldiers and their families into its orbit while remaining inconspicuous to most other americans in the meantime the consequences of american military action abroad may be out of sight and out of mind but they are very real indeed this chasm between the military and the civilian in american life and the moral blind spot it has created is one of the great themes of uncertain ground phil klay s powerful series of reckonings with some of our country s thorniest concerns written in essay form over the past ten years in the name of what do we ask young americans to kill and to die in the name of what does this country hang together as we see at every turn in these pages those two questions have a great deal to do with each other and how we answer them will go a long way toward deciding where our troubled country goes from here

this essay focuses on phil klay s collection of short stories about the iraq war redeployment as a piece of war rhetoric i examine it as a proponent of serious engagement with war and explicate the text specifically as it discusses disconnect i will discuss disconnect in greater detail shortly but first allow me to suggest that the consideration of war literature like klay s as persuasive rhetoric is important because of the degree to which it informs civilians perceptions and opinions
