the second edition of jack crumley s an introduction to epistemology strikes a balance between the many issues that engage contemporary epistemologists and the contributions of the major

historical figures he shows not only how philosophers such as descartes hume locke berkeley and kant foreground the contemporary debates but also why they deserve consideration on their own terms a substantial revision of the first edition the second edition is even more accessible to students the new edition includes recent work on contextualism evidentialism externalism and internalism and perceptual realism as well the chapter on coherence theory is substantially revised reflecting recent developments in that area new to this second edition is a chapter on feminist epistemology which includes discussions of major positions and themes such as feminist empiricism feminist standpoint epistemology postmodern epistemology and feminist critiques of objectivity it presents the important contributions of philosophers such as sandra harding helen longino genevieve lloyd and others each chapter ends with a list of study questions and readings for further study

the philosophy of education an introduction encourages the reader to actively engage with the philosophy of education and the carefully selected contributors bring the philosophy of education to life for the reader each chapter focuses on a particular area of debate and explains the main concepts includes extracts from philosophical writing followed by questions that guide the reader to critically and actively engage with the text guides the reader towards further reading and suggests next steps and more challenging sources or counter pointed arguments the philosophy of education an introduction is essential reading for education students and for trainee teachers on undergraduate and postgraduate programmes it will also appeal to practicing teachers and educationalists who wish to engage with philosophical approaches to contemporary educational issues

reprint of the original first published in 1882 the antigonos publishing house specialises in the publication of reprints of historical books we make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

the middle ages spanned the period between two watersheds in the history of the biblical text jerome s latin translation c 405 and gutenberg s first printed version in 1455 the bible was arguably the most influential book during this time affecting spiritual and intellectual life popular devotion theology political structures art and architecture in an account that is sensitive to the religiously diverse world of the middle ages frans van liere offers here an accessible introduction to the study of the bible in this period discussion of the material evidence the bible as book complements an in depth examination of concepts such as lay literacy and book culture this introduction includes a thorough treatment of the principles of medieval hermeneutics and a discussion of the formation of the latin bible text and its canon it will be a useful starting point for all those engaged in medieval and biblical studies

this book introduces the main people and themes in the history of trinitarian theology and analyses recent alternative readings of the tradition

an accessible account of the bible in the middle ages that traces the formation of the medieval

canon
