Mobilizing Mainstream Islam explains the rise and changing shape of religious nationalism in Indonesia after the fall of Suharto in 1998 in the 2000s a time of electoral democratization Indonesia's religious and political landscape experienced significant competition and reshuffling as religious and political elites formed an alliance to challenge Indonesia's official policies of tolerance and religious pluralism as Saskia Sch fer argues state and religious authorities have in the post Suharto era constructed a homogenized bureaucratized form of Islam which she terms mainstream Islam that deliberately marginalizes people framed as minorities such as Ahmadiyya Shia Muslims and LGBTqi identifying people through securitization and theological delegitimization she shows how the discourses of human rights have only sharpened the contours of these identities within the national imaginary through diverse case studies *Mobilizing Mainstream Islam* explores how competitive electoral politics decentralization and media fragmentation facilitated the emergence of Islamist majoritarian rule and compares Indonesia's decentralized model with Malaysia's state driven approach Sch fer examines how competition over resources and public support shape religious nationalism as the case of Indonesia illuminates broader global trends of religious nationalism this book offers fresh insights into the challenges of maintaining pluralism in electoral democracies

despite its overwhelmingly muslim majority Indonesia has always been seen as exceptional for its diversity and pluralism in recent years however there has been a rise in majoritarianism with resurgent Islamist groups pushing hard to impose conservative values on public life in many cases with considerable success this has sparked growing fears for the future of basic human rights and in particular the rights of women and sexual and ethnic minority groups there have in fact been more prosecutions of unorthodox religious groups since the fall of Soeharto in 1998 than there were under the three decades of his authoritarian rule some Indonesians even feel that the pluralism they thought was constitutionally guaranteed by the national ideology the Pancasila is now under threat this book contains essays exploring these issues by prominent scholars lawyers and activists from within Indonesia and beyond offering detailed accounts of the political and legal implications of rising resurgent Islamism in Indonesia examining particular cases of intolerance and violence against minorities it also provides an account of the responses offered by a weak state that now seems too often unwilling to intervene to

protect vulnerable minorities against rising religious intolerance
