this study is situated at the intersection of school science and zoo education programs it seeks to contribute to the literature by focusing on the perspectives and experiences of students teachers and zoo staff the research moves beyond focusing on a visit to the zoo to include a complementary unit of study in a science classroom using a case study research design yin 1994 i engaged in a unit of study focusing on zoos and biodiversity conservation with a teacher and his grade 11 biology class conducted interviews with the teacher 14 students and 11 zoo staff administered teacher and student surveys and collected supporting documentation the curricular context for this study aligned with stse education emphases and strategies pedretti nazir 2011 significant themes were identified in the data using the constant comparative method lincoln guba 1985 and formed the basis for six vignettes polkinghorne 1995 it was found that the teacher and most students held

mixed views concurrently for and against zoos except for one student who held a consistent against zoos stance the zoo staff held a predominately for zoos stance yet were concerned about poor public perception of zoos findings suggest that the complex nature of modern zoos in society hyson 2004 lindburg 1999 was reflected in the participants views the teacher and zoo staff responded to these views in various ways but educating the students about zoos was most common the students stated that views against zoos did not impact their learning although occasional tension over views occurred amongst students and the variable nature of zoos appeared to affect the students willingness to learn in zoos the students revealed that exposure to multiple perspectives influenced how they formed views on zoos and educator positioning on zoos was noticed by the students these findings suggest that the teacher and zoo staff faced pedagogical challenges when responding to multiple views on zoos including positioning on issues and influence over students implications from this research are provided for consideration by researchers teachers and zoo staff
