signs of reincarnation provides the first comprehensive look at the belief in reincarnation and the evidence for past lives from historical records anthropological studies and contemporary research matlock discusses various ways the evidence may be interpreted and shows that although reincarnation entails a rejection of the materialist notion that consciousness is generated by the brain it does not require the acceptance of any radically new concepts or the abandonment of well established findings in mainstream psychology or biology this book offers students scholars and anyone interested in the possibility of reincarnation an essential grounding in beliefs cases and theory while opening doors for future research into the extension of consciousness beyond our present lives
