boredom is a ubiquitous feature of modern life endured by everyone it is both cause and effect of modernity and
 of situations spaces and surroundings as such this book argues boredom shares an intimate relationship with
 architecture one that has been seldom explored in architectural history and theory boredom architecture and
 spatial experience investigates that relationship showing how an understanding of boredom affords us a new way
 of looking at and understanding the modern experience it reconstructs a series of episodes in architectural history
 from the 19th century to the present to survey how boredom became a normalized component of the everyday
 how it infiltrated into the production and reception of architecture and how it serves to diagnose moments of
 crisis in the continuous transformations of the built environment erudite and innovative the work moves deftly
 from architectural theory and philosophy to literature and psychology to make its case combining archival
 material scholarly sources and illuminating excerpts from conversations with practitioners and thinkers including
