the increasing centrality of memory to work being done across a wide range of disciplines has brought along with it vexed questions and far reaching changes in the way knowledge is pursued this timely collection provides a forum for demonstrating how various disciplines are addressing these concerns is an historian s approach to memory similar to that of theorists in media or cultural studies or are their understandings in fact contradictory which methods of analysis are most appropriate in which contexts what are the relations between individual and social memory why should we study memory and how can it enrich other research what does its study bring to our understanding of subjectivity identity and power in addressing these knotty questions memory and methodology showcases a rich and diverse range of research on memory leading scholars in anthropology history film and cultural studies address topics including places of memory trauma film and popular memory memory texts collaborative memory work and technologies of memory this timely and interdisciplinary study represents a major contribution to our understanding of how memory is shaping contemporary academic research and of how people shape and are shaped by memory

the collapse of the iron curtain the renationalization of eastern europe and the simultaneous eastward expansion of the european union have all impacted the way the past is remembered in today s eastern europe at the same time in recent years

the europeanization of holocaust memory and a growing sense of the need to stage a more self critical memory has significantly changed the way in which western europe commemorates and memorializes the past the increasing dissatisfaction among scholars with the blanket undifferentiated use of the term collective memory is evolving in new directions this volume brings the tension into focus while addressing the state of memory theory itself

this book explores the history and legacy of monuments to the fallen from the francoist side in the spanish civil war del arco blanco studies thousands of monuments in towns and cities across spain to provide a detailed account of the history and memory of the civil war francoism and the transition to democracy chapters in the book focus on the myth of those said to have fallen for god and for spain a phrase that encapsulated and shaped the dichotomy between good and bad spaniards they also focus on the use of monuments to control political and ideological ideals and to legitimise the francoist dictatorship further chapters study spanish society s struggle to deal with its past of mass killing denial and exclusion del arco blanco also pays attention to the way the francoist authorities used monuments and memory for their political and ideological advantage and to control people power as well as the political agenda the book draws on extensive research to reconstruct both the specific history of monuments scattered throughout the country and their role within manipulative francoist memory of the spanish civil war in these ways monuments helped shape the francoist narrative and memory but they also became part of the landscape of contemporary spanish history this book is an excellent resource for postgraduate students and professional researchers studying the aftermath of the spanish civil war and the influence of monuments on the construction of national memory culture and society in spain both at the time and through to the present day
