research methods thoroughly covers both quantitative and qualitative oriented research unlike many texts which begin with an introduction to research and then move directly to how to conduct research this text develops critical thinking skills about research and is designed to produce knowledgeable and informed critical research consumers each chapter builds on the information in

preceding ones to focus on the importance of research methodology and interpretation rather than many competitors traditional coverage of statistical calculations and analyses the thorough and extensive coverage of all research methods combined with a focus on critical thinking makes this text truly unique

this work offers both basic and advanced treatments intended to serve academics students and marketing research professionals it begins with a history of qualitative methods in marketing by sidney levy and continues with discussions of current thought and practice

understanding research becoming a competent and critical consumer helps students read research in an informed and critical manner evaluate its usefulness and apply the results to their own work and lives dedicated to helping readers become proficient in finding information and resources that enable them to live and work more effectively the book is both realistic and relevant the book opens with an exploration of why many practitioners and students feel they dislike research and why research really does matter the subsequent chapters discuss how to understand the importance of research questions evaluate the methods sections of research reports regarding participants procedures and data collection interpret the results and assess the discussion section chapters are framed by opening outlines and major concepts sections and ending conclusions and summaries understanding research is a highly personal accessible guide that helps students understand how to critically examine and consume research through the use of humor personal examples reflective exercises and examples the book makes understanding research more digestible and enjoyable the book is an ideal resource at the undergraduate and graduate level for courses in research methods in counseling education psychology and human services

includes appendix index

abstract these proceedings record the events of a 1986 workshop concerning public policies and regulatory programs to protect the safety and quality of public food supplies topics addressed include pesticide regulation microbiological contamination of food a consumer view of food safety and basic research needs in agricultural pest control in relation to food safety and quality

marketing is still widely perceived as simply the creator of wants and needs through selling and advertising and marketing theory has been criticized for not taking a more critical approach to the subject this is because most conventional marketing thinking takes a broadly managerial perspective

without reflecting on the wider societal implications of the effects of marketing activities in response this important new book is the first text designed to raise awareness of the critical ethical social and methodological issues facing contemporary marketing uniquely it provides the latest knowledge based on a series of major seminars in the field the insights of a leading team of international contributors with an interdisciplinary perspective a clear map of the domain of critical marketing a rigorous analysis of the implications for future thinking and research for faculty and upper level students and practitioners in marketing and those in the related areas of cultural studies and media critical marketing will be a major addition to the literature and the development of the subject

e learning has transformed the traditional premise of educational theorists educationists and business strategists worldwide have been compelled to think out of the classroom and reflect on ways to create theories and strategies around teaching and learning online the premise of this book is e learning is realistic and has a definite framework to it the framework might require tailoring depending on the business context and desired learning outcomes but it definitely requires a great deal of belief commitment and interest from business leaders to accelerate their attempt at creating and building institutions the book is an outcome of the experience of two young practitioners encompassing various areas such as understanding the client needs and proposing appropriate e learning solutions designing course material for e learning products applying old and new instructional strategies developing cbts and wbts and evaluating learning products and solutions for learning effectiveness the book collates the essence of the best lessons on e learning from a practical view point and presents a case for designing cost effective systems which corporates as well as educational institutions may use for enhancing productivity and learning in their organisations it takes a three dimensional view of e learning content services and technology the various evident and not so evident issues related to implementing e learning in organisations and takes a peek into the future of e learning book jacket
