the internet has brought about unprecedented changes to modern life creating a connected society but also radically opening up the question of how to design and

apply legal rules in a digital world this thoroughly revised second edition provides an updated exploration of the latest developments and controversies in european internet law

this extensively revised and updated third edition of eu internet law offers a state of the art overview of the key areas of eu internet regulation as well as a critical evaluation of eu policy making and governance in the field it provides an in depth analysis of the ways in which relevant legal instruments interact as well as comparative discussions contrasting eu and us solutions

with the ongoing evolution of the digital society challenging the boundaries of the law new questions are arising and new answers being given even now almost three decades on from the digital revolution written by a panel of legal specialists and edited by experts on eu internet law this book provides an overview of the most recent developments affecting the european internet legal framework specifically focusing on four current debates firstly it discusses the changes in online copyright law especially after the enactment of the new directive on the single digital market secondly it analyzes the increasing significance of artificial intelligence in our daily life the book then addresses emerging issues in eu digital law exploring out of the box approaches in internet law it also presents the last cyber criminality law trends offenses international instrument behaviors and discusses the evolution of personal data protection lastly it evaluates the degree of consumer and corporate protection in the digital environment demonstrating that now more than ever eu internet law is based on a combination of copyright civil administrative criminal commercial and banking laws

the book provides a detailed overview and analysis of important eu internet regulatory challenges currently found in various key fields of law directly linked to the internet such as information technology consumer protection personal data e commerce and copyright law in addition it aims to shed light on the content and importance of various pending legislative proposals in these fields and of the court of justice of the european union s recent case law in connection with solving the different problems encountered the book focuses on challenging legal questions that have not been sufficiently analyzed while also presenting original thinking in connection with the regulation of emerging legal questions as such it offers an excellent reference tool for researchers

policymakers judges practitioners and law students with a special interest in eu internet law and regulation

this book provides an overview of recent and future legal developments concerning the digital era to examine the extent to which law has or will further evolve in order to adapt to its new digitalized context more specifically it focuses on some of the most important legal issues found in areas directly connected with the internet such as intellectual property data protection consumer law criminal law and cybercrime media law and lastly the enforcement and application of law by adopting this horizontal approach it highlights on the basis of analysis and commentary of recent and future eu legislation as well as of the latest cjeu and ecthr case law the numerous challenges faced by law in this new digital era this book is of great interest to academics students researchers practitioners and policymakers specializing in internet law data protection intellectual property consumer law media law and cybercrime as well as to judges dealing with the application and enforcement of internet law in practice

with the ongoing evolution of the digital society challenging the boundaries of the law new questions are arising and new answers being given even now almost three decades on from the digital revolution written by a panel of legal specialists and edited by experts on eu internet law this book provides an overview of the most recent developments affecting the european internet legal framework specifically focusing on four current debates firstly it discusses the changes in online copyright law especially after the enactment of the new directive on the single digital market secondly it analyzes the increasing significance of artificial intelligence in our daily life the book then addresses emerging issues in eu digital law exploring out of the box approaches in internet law it also presents the last cyber criminality law trends offenses international instrument behaviors and discusses the evolution of personal data protection lastly it evaluates the degree of consumer and corporate protection in the digital environment demonstrating that now more than ever eu internet law is based on a combination of copyright civil administrative criminal commercial and banking laws

this thoroughly revised fourth edition of eu internet law provides a state of the art overview of eu internet regulation andrej savin critically evaluates eu policymaking and governance assessing the latest developments in the field

this book examines the role of the eu in ensuring privacy and data protection on the internet it describes and demonstrates the importance of privacy and data protection for our democracies and how the enjoyment of these rights is challenged by particularly big data and mass surveillance the book takes the perspective of the eu mandate under article 16 tfeu it analyses the contributions of the specific actors and roles within the eu framework the judiciary the eu legislator the independent supervisory authorities the cooperation mechanisms of these authorities as well as the eu as actor in the external domain article 16 tfeu enables the court of the justice of the eu to play its role as constitutional court and to set high standards for fundamental rights protection it obliges the european parliament and the council to lay down legislation that encompasses all processing of personal data it confirms control by independent supervisory authorities as an essential element of data protection and it gives the eu a strong mandate to act in the global arena the analysis shows that eu powers can be successfully used in a legitimate and effective manner and that this subject could be a success story for the eu in times of widespread euroskepsis it demonstrates that the member states remain important players in ensuring privacy and data protection in order to be a success story the key stakeholders should be prepared to go the extra mile so it is argued in the book the book is based on academic research for which the author received a double doctorate at the university of amsterdam and the vrije universiteit brussels it builds on a long inside experience within the european institutions as well as within the community of data protection and data protection authorities it is a must read in a time where the setting of eu privacy and data protection is changing dramatically not only as a result of the rapidly evolving information society but also because of important legal developments such as the entry into force of the general data protection regulation this book will appeal to all those who are in some way involved in making this regulation work it will also appeal to people interested in the institutional framework of the european union and in the role of the union of promoting fundamental rights also in the wider world

the worlds of today and tomorrow rely upon open networks connecting distant participants exchanging personal and commercial information bringing some certainty to this very dynamic environment are the legal foundations supporting the free flow of information over the internet new lawyers lawyers new to information and internet law lawyers updating their knowledge on the latest statutes and cases and lawyers desiring

a u s eu comparative legal perspective are among the audiences for this single resource on information and internet law this book used at law schools in the u s and europe is current to july 2020 and serves as volume 1 of a two volume set it provides insight by looking at current statutes regulations and directives in the united states and europe it discusses and identifies issues raised by the latest u s and eu cases on protection of information and use of the internet starting with a risk and standards based approach to this area of law the areas of information law addressed are privacy information security and data protection law unlawful data disclosures through cybercrime and data breach and lawful data disclosures related to messaging and surveillance the areas of internet law addressed are access jurisdiction speech intermediary liability intellectual property and e commerce through electronic and website agreements bringing a unique perspective to explain a complex topic the author has written numerous books on legal privacy and technology and legal history lectures and writes extensively on the latest developments in technology law and has long lived and worked in both of these jurisdictions this book is the result of those many years of experience and insight

this publication contains the results of the second enterprise survey on the use of e business and information and communication technologies ict undertaken by the eu member states and norway carried out during the first half of 2002 the surveys focused on indicators of e commerce including business sales and purchases via the internet and other computer mediated networks barriers to e commerce as well as considering the extent of e commerce in the sectors of retail trade hotels and accommodation computer services and manufacturing

first published in 2008 routledge is an imprint of taylor francis an informa company

since the second edition 2010 of this invaluable book primary texts with expert article by article commentary on european data protection e commerce and information technology it regulation including analysis of case law there has been a marked shift in regulatory focus it can be said that without knowing it eu citizens have migrated from an information society to a digital single market to a data driven economy this thoroughly revised and updated third edition pinpoints in a crystal clear format the meaning and application of currently relevant provisions enacted at the european and member state levels allowing practitioners and other interested parties to grasp the

exact status of such laws whether in force under construction controversial or proposed material has been rearranged and brought into line with the vibrant and constantly shifting elements in this field with detailed attention to developments most new to this edition in such issues as the following cybersecurity privacy rights supply of digital content consumer rights in electronic commerce geo blocking open internet contractual rules for online sale of tangible goods competition law in the it sectors consumer online dispute resolution electronic signatures and reuse of public sector information there is a completely new section on electronic identification trust and security regulation defining the trend towards an effective e commerce framework protecting consumers and businesses accessing content or buying goods and services online the contributors offer a very useful and practical review and analysis of the instruments taking into account the fluidity and the transiency of the regulation of these very dynamic phenomena this book will be quickly taken up by the myriad professionals lawyers officials and academics engaged with data protection e commerce and it on a daily basis

the editor brings together specialists from critical discourse analysis and critical approaches to communications history literature cultural studies media sociology politics and international relations to discuss the discursive construction of ethnic national and regional identities

this special edition of the criminal law review journal comprises a number of articles which have crime and the internet as their focus the articles cover the governance of the internet in europe with special reference to illegal and harmful content computer child pornography the liability of the distributors cyberstalking the regulation of harassment on the internet criminal law and the internet the investigator s perspective digital footprints assessing computer evidence and policing and the regulation of the internet

this is a new sixteenth edition of the directory of eu information sources it brings together a broad range of information sources comprising not only the various constituent institutions of the european union their personnel publications information websites and representations in europe and the rest of the world but also diplomatic representation in brussels european level trade and professional associations and ngos consultants and lawyers specializing in eu affairs press agencies eu grants and loans

programmes and universities offering courses in european integration this is the most comprehensive compilation of contacts and published information on the european union providing access to over 12 500 information sources
