local historian margery blair perkins 1907 1981 provides a detailed narrative charting the growth and development of the north shore city of evanston illinois a place boasting a rich and multi layered history perkins brings the city's past to life through stories of its residents architecture and growth over the years she charts the development of the city from its earliest days when it was known as the settlement of grosse pointe and later ridgeville to its modern manifestation as a bustling city just outside of chicago within a larger historical narrative perkins provides biographies of noted residents as she documents the evolution of the city's organizations cultural life and institutions such as northwestern university

the city's development from ancient times to the modern age winner of the national book award one of the major works of scholarship of the twentieth century christian science monitor index illustrations copyright libri gmbh all rights reserved

if humankind can be said to have a single greatest creation it would be those places that represent the most eloquent expression of our species's ingenuity beliefs and ideals the city in this authoritative and engagingly written account

the acclaimed urbanist and bestselling author examines the evolution of urban life over the millennia and in doing so attempts to answer the age old question what makes a city great despite their infinite variety all cities essentially serve three purposes spiritual political and economic kotkin follows the progression of the city from the early religious centers of mesopotamia the indus valley and china to the imperial centers of the classical era through the rise of the islamic city and the european commercial capitals ending with today s post industrial suburban metropolis despite widespread optimistic claims that cities are back in style kotkin warns that whatever their form cities can thrive only if they remain sacred safe and busy and this is true for both the increasingly urbanized developing world and the often self possessed global cities of the west and east asia looking at cities in the twenty first century kotkin discusses the effects of developments such as shifting demographics and emerging technologies he also considers the effects of terrorism how the religious and cultural struggles of the present pose the greatest challenge to the urban future truly global in scope the city is a timely narrative that will place kotkin in the company of lewis mumford jane jacobs and other preeminent urban scholars

in this classic work max weber one of the founders of modern social science and the man characterized by karl jaspers as the philosopher of his age presents one of the most influential theories of urban life and development for the modern reader the study provides a perspective that brings greater understanding and dimension to today s urban problems housing transportation overcrowding and social disorganization weber saw the city as a balanced self restoring system of institutions that has played a basic role in the development of western civilization he discusses the origins of cities and proceeds to show how and why this new way of urban life was fully developed here is a work enlightened by keen insight and intellectual vigor from back cover
