at a time when a pile of bricks is displayed in a museum when music is composed for performance underwater and the boundaries between popular and fine art are fluid conventional understandings of art are strained in describing what art is what it includes or excludes whether and how it should be evaluated and what importance should be assigned the arts in society in this book vera zolberg examines diverse theoretical approaches to the study of the arts ranging over humanistic and social scientific views representing a variety of scholarly traditions american and european she then develops a sociological approach that evaluates the institutional economic and political influences on the creation of art while also affirming the importance of the question of artistic quality the author examines the arts in the social contexts in which they are created and appreciated focusing on the ways in which people become artists the institutions in which their careers develop the supports and pressures they face the publics they need to please and the political forces with which they must contend particular subjects covered include the process by which works are created and re created at different times with changed meanings and for new social uses the role of the audience in the realization of artistic experiences the social consequences of taste preferences the reasons for change in artistic styles and for the coexistence of many art forms and styles

how do we understand mental health problems in their social context a former bma medical book of the year award winner this book provides a sociological analysis of major areas of mental health and illness the book considers contemporary and historical aspects of sociology social psychiatry policy and therapeutic law to help students develop an in depth and critical approach to this complex subject new developments for the fifth edition include brand new chapter on prisons criminal justice and mental health expanded coverage of stigma class and social networks updated material on the mental capacity act mental health act and the deprivation of liberty a classic in its field this well established textbook offers a rich and well crafted overview of mental health and illness unrivalled by competitors and is essential reading for students and professionals studying a range of medical sociology and health related courses it is also highly suitable for trainee mental health workers in the fields of social work nursing clinical psychology and psychiatry rogers and pilgrim go from strength to strength this fifth edition of their classic text is not only a sociology but also a psychology a philosophy a history and a polity it combines rigorous scholarship with radical argument to produce incisive perspectives on the major contemporary questions concerning mental health

and illness the authors admirably balance judicious presentation of the range of available understandings with clear articulation of their own positions on key issues this book is essential reading for everyone involved in mental health work christopher dowrick professor of primary medical care university of liverpool uk pilgrim and rogers have for the last twenty years given us the key text in the sociology of mental health and illness each edition has captured the multi layered and ever changing landscape of theory and practice around psychiatry and mental health providing an essential tool for teachers and researchers and much loved by students for the dexterity in combining scope and accessibility this latest volume with its focus on community mental health user movements criminal justice and the need for inter agency working alongside the more classical sociological critiques around social theories and social inequalities demonstrates more than ever that sociological perspectives are crucial in the understanding and explanation of mental and emotional healthcare and practice hence its audience extends across the related disciplines to everyone who is involved in this highly controversial and socially relevant arena gillian bendelow school of law politics and sociology university of sussex uk from the classic bedrock studies to contemporary sociological perspectives on the current controversy over which scientific organizations will define diagnosis rogers and pilgrim provide a comprehensive readable and elegant overview of how social factors shape the onset and response to mental health and mental illness their sociological vision embraces historical professional and socio cultural context and processes as they shape the lives of those in the community and those who provide care the organizations mandated to deliver services and those that have ended up becoming unsuitable substitutes and the successful and unsuccessful efforts to improve the lives through science challenge and law bernice pescosolido distinguished professor of sociology indiana university usa

how do we understand mental health problems in their social context a former bma medical book of the year award winner this book provides a sociological analysis of major areas of mental health and illness the book considers contemporary and historical aspects of sociology social psychiatry policy and therapeutic law to help students develop an in depth and critical approach to this complex subject new developments for the sixth edition include brand new chapter on aging and older people updated material on social class ethnicity user involvement young people and adolescence new coverage on prisons legalism and the rise of digital mental health management and delivery a classic in its field this well established textbook offers a rich contemporary and well crafted overview of mental health and illness unrivalled by competitors and is essential reading for students and professionals studying a range of medical sociology and health related courses it is also highly suitable for trainee mental health workers in the fields of social work nursing clinical psychology and psychiatry this classic text book has for many years provided the definitive sociological lens with which to understand the range of conceptual approaches to understanding mental illness in the historical journey from madness to emotional health and the complex interdisciplinary challenges of providing appropriate care or treatment to human distress and suffering this updated edition continues to provide illuminating insights and clarifications not only for students but for academic researchers and scholars at all levels gillian bendelow professor in sociology of health and medicine school of applied social science university of brighton a sociology of mental health and illness is a sociological classic for three decades now it has been essential reading for all sociologists and other social scientists wishing to learn more about mental ill health and society be they students or professional teachers and researchers it has also long been a beacon and will continue to guide mental health practitioners keen to better understand and engage with the social dimensions of their work a sociology of mental health and illness is an incomparable resource professor martyn pickersgill university of edinburgh uk the relationship between sociology and mental health has been well documented over the years social factors such as poverty social stress socioeconomic disadvantages inequality social exclusion have been implicated for increased rates of mental health problems unfortunately psychiatry has not engaged sufficiently with sociology a sociology of mental health and illness has covered this disparity the sixth edition is a most welcome addition updating social trends and new sociological material relevant to mental health more emphasis on service users participation and the emerged evidence base it is a classic that should be an essential reading for all mental health professionals nick bouras emeritus professor of psychiatry king s college london institute of psychiatry psychology and neuroscience anne rogers is professor of medical sociology health systems implementation at the university of southampton david pilgrim is visiting professor of clinical psychology at the university of southampton

the sociological theory of practices developed in this book from the concept of the event compels us to

question how practices not only chain into forms of practice the approach also allows us to see how these practices give rise to practice formations that manifest as enduring zones of intensity within society this very problem is at the center of the considerations pursued here and is unfolded through an analysis of pop music as a formation of practice as an exemplary case study the author chooses the love and peace festival on fehmarn from the year 1970 in doing so the book brings to life a period of pop music that has much more to do with our present than it may seem at first glance

a sociology of awkwardness shows how awkward feelings are the outcome of social interactions going wrong combining insights from cultural sociology and the sociologies of interactions and emotions this book develops the first comprehensive sociology of awkwardness it provides an understanding of how people define express and experience awkwardness while locating its causes not within individuals but within social interactions the book also offers a unique perspective by examining how both time and space contribute to the experience of awkwardness additionally it delves into the various ways people deal with awkward interactions a sociology of awkwardness introduces a novel theory and typology of awkwardness drawing from rich empirical data of everyday encounters work dating and self help this book will appeal to scholars across the social sciences particularly those interested in culture social interactions and emotions it will also attract readers seeking to understand awkwardness as a cultural phenomenon though not as a self help guide

an understanding of the nature and forms of organisation particularly with reference to industrial societies is a key area in sociological analysis this book discusses and explains what concepts to employ and what analytical procedures to adopt as well as conveying a sense of the theoretical and empirical diversity involved in the study of organisations among the questions explored are why do we classify organisations in particular ways and for what purpose how can one explore the relationships pertaining to an organisation and its environment what issues are raised by the existence of many varied and often competing organisations in industrial societies

this volume examines the dynamic interplay between what theoretical perceptions tell us about urban life and how ordinary people interpret and respond to the actual experience of living in cities major focuses are the primacy of social interaction for an understanding of urban life and the strategies people use to create community in environments which many theorists believe promote only alienation and social disintegration this new edition incorporates a strongly interdisciplinary perspective and includes new chapters on significant topics that have received little critical attention in the field

as the first sociological book to tackle humanity's relationship with the universe this fascinating volume links social theory to classical and contemporary science and proposes a new cosmic social theory

an established introduction to the sociology of teaching and learning which has been enlarged to take account of recent issues in education each chapter ends with signposts designed to encourage further investigation of the ideas and themes raised

first published in 1974 routledge is an imprint of taylor francis an informa company

a new edition of a successful book from one of the biggest names in the field of the sociology of religion the first edition is widely adopted and cited throughout the world and readers will be keen to see this revised and updated version

in this important book paul higgs and chris gilleard demonstrate how an invigorated sociology of later life is crucial for understanding the role of later life in 21st century societies

organized around the discourses of modernity democracy and citizenship a primer in social and sociological theory toward a sociology of citizenship helps readers to develop skills in critical thinking and theory analysis as they explore nine central ideas of thought modernity society self religion capitalism power gender race and globalization each chapter concludes with a section that discusses the craft of citizenship as it relates to the chapter content

sociology of families second edition begins at the level of the individual by examining familiar

contemporary issues[] topics students are likely to feel strongly about david newman and liz grauerholz next show students the deeper and more detailed sociological underpinnings of the issues at hand using the theories and data of social sciences to understand the meaning and broader relevance of these controversies and experiences

the sociology of art is now an established sub discipline of sociology but little work has been done to explore the implications not of society on art but of art on the nature and principles of sociology itself vision and society explores the ways in which art here mainly understood as visual art structures in fundamental ways the constitution of society the relations between societies and the ways in which society and culture should be theorized building initially on an unfulfilled project by the french sociologist of art nathalie heinich to derive a sociology from art this book pushes this idea in unconventional directions rethinking the relationships between the study of art and the study of sociology and anthropology this book explores how this rethinking might impact sociological theory in general and certain aspects of it in particular especially the study of social movements social change the urban the constitution of space and the ways in which human social relationships are mediated and expressed
