first published in 1917 with a second edition in 1948 this is the first english translation of santi romano s classic work the legal order the focus is on the notion of institution which romano considers the core and distinguishing feature of law the legal order offers precious insights for a thorough rethinking of state based models of law

is the procedural autonomy of eu member state a myth or a reality what should this concept be taken to mean starting from the analysis of requirements and principles regulating generally speaking the relationships between member states and eu law this book provides a definition of procedural autonomy able to account for the concept s inherent limits out of an analysis of

the more relevant eu jurisprudence the author identifies the rationale underlying the interventions of the ecj on issues of procedural autonomy and the common logic that emerges from it and reveals how in an unchanged context of procedural autonomy of the member states national procedural law becomes more and more functionalized to the requirements of effectiveness of substantive eu law as such we should speak of a functionalized procedural competence rather than of procedural autonomy but this is by no means a case of paradise lost the book includes a foreword by prof jürgen schwarze one of the founding fathers of european administrative law

this book examines the role of law in europe at a time when economic policies have become dominant not only on this continent but globally can law be seen as a mere infrastructure or does it contribute to defining the social and legal order through its own inherent rules if the second hypothesis is true what might these rules be and how may they be identified lastly to what extent can agreeing a definition of the role of law affect the future of europe with the next generation european union the eu has introduced an unprecedented investment plan for economic recovery and resilience in doing so it has become the most important financial intermediary on the continent but is this simply the prelude to a european economic and financial revival or does it also aim to strengthen the european legal order in social political and constitutional terms this book argues that the role of law in europe should be to achieve a balanced relationship between freedom and solidarity encouraging economic competition but also social cohesion analyzing the role of law in the project of european integration it maintains that law should be more than an infrastructure for finance and economics showing how it can act as a guide and a binding force to achieve a more balanced relationship between economics politics and law this book will be of interest to scholars in the fields of public law european law law and economics the philosophy of law legal history political theory and political science as well as others concerned with the future of european integration

part i administration and law 1 history and typology 2 crisis reform and constitutionalization 3 centralized management 4 shared management 5 comitology 6 agencies 7 open method of coordination 8 social partners part ii law and administration 9 foundations 10 courts 11 access

includes all the latest updates and changes to the 2004 tax code publishers weekly called it a can't miss title the new york daily news praised it for pushing the envelope and taking a consumerist approach that's helpful during all the other months before next april best of all more than half a million people have consulted how to pay zero taxes for solid guidance on paying less to the irs this fully updated 22nd edition contains the latest tax changes more tax saving tips than any other guide easy practical strategies to lower taxes this year next year and beyond hundreds of legal ways to preserve pretax income and profit

this book rigorously debates the notion of the person a fundamental concept which underpins national private law orders worldwide

the italian yearbook of international law aims at making accessible to the english speaking public the italian contribution to

the practice and literature of international law volume xvi 2006 is organised in three main sections the first contains doctrinal contributions including articles on the 2006 conflict in lebanon on the historical contribution of francisco suárez to the concept of international community and on recent developments in the field of international environmental law this section includes also shorter notes on current developments in the field of minority protection state immunity in relation to argentine bonds claims as well as the surveys of the practice of icj itlos ilc wto and the european court of human rights the second section covers the italian practice in the areas of i judicial decisions ii diplomatic and parliamentary practice iii treaty practice and iv national legislation the third section contains a systematic bibliographical index of italian literature in the field of international law and reviews of recent books the volume ends with an analytical index for ready consultation that includes the main judicial cases and legal instruments cited throughout the yearbook

focusing on the ruling elites of hitler s germany mussolini s italy franco s spain and salazar s portugal this volume explains the relationships and power dynamics that support a dictator s rule
