processo di popolamento della periferia romana è affrontato in questo libro per mezzo di nuove fonti archivistiche con cui è stato possibile verificare ipotesi di studio di recente acquisizione sullo sfondo la storia del più importante istituto di case popolari italiano svoltasi durante il ventennio un periodo nel quale l'ente fiancheggiatore delle politiche urbanistiche e abitative del fascismo per la capitale e seppur a fasi alterne organo edilizio del governatorato fu impegnato nella costruzione di intere parti di città e in quella di un vasto esperimento pedagogico di educazione fascista nei suoi caselli contribuendo anch'esso all'instaurazione di un sistema dalle caratteristiche totalitarie. Luciano Villani è nato a Taranto nel 1977 si è laureato in lettere all'università La Sapienza di Roma e ha conseguito il dottorato in storia contemporanea presso l'università di Torino dopo un anno di ricerca presso l'Insml è attualmente impegnato in vari progetti di ricerca sulla storia d'impresa e del lavoro.

History is generally defined as the study of past events particularly in human affairs and is mostly understood when presented chronologically. That's why someone also defined it as the chronological record of the past. Knowing the past is extremely important for any society and human being. Past gives us insights into our evolving behavior in many matters of life. The book is seen as a unique opportunity to preserve the memory of the Italian history of soil science. It represents a milestone and a cultural heritage. Moreover, the book is a sort of ideal bridge between the pioneers of soil science in Italy and the young generation of researchers contributing to spreading awareness of the importance of soil as a fundamental resource.
