improving communication in mental health settings draws on empirical studies of real world settings to demonstrate contemporary

practice based evidence providing effective strategies for communicating with patients clients in mental health settings the book integrates clinical experience and language based evidence drawn from qualitative research drawing on studies that utilize scientific language based approaches such as discourse and conversation analysis it focuses on social interaction between professionals and patients clients to demonstrate effective communication practices chapters are led by clinical professionals and feature a range of mental health settings different mental health conditions and types of patient client and evidence based recommendations this book is an essential guide for professionals working in mental health and or social work and those training or working in clinical areas of mental health practice

communicating effectively when addressing psychiatric and psychological problems in everyday practice can be difficult this book provides a clear and concise guide on how to run consultations using the calgary cambridge model the model is applied to an extensive variety of mental health conditions ranging from taking a good psychiatric history to specialist scenarios such as working with families and young people or breaking bad news in mental health there are also practical and comprehensive chapters on anxiety depression psychosis risk to self mental capacity dealing with emotions and mental health consultations in primary care an accompanying downloadable resource enhances knowledge and promotes greater understanding through a series of simulated consultations which explore and answer the osce questions posed in the text the practical accessible and comprehensive approach helps clinicians increase their confidence in mental health consultations it is also of great benefit to students wishing to improve their clinical skills and ultimately to pass their exams

this book has been written with special education teachers in mind there is a strong research base yet the material is very accessible there are numerous case studies that illustrate the impact of language disorders on students and on classrooms activities at the end of chapters provide suggestions for group or individual projects this book takes a categorical approach including descriptions of language disabilities by category of disability for professionals working in the field of special education

people today must make decisions about many health safety and environmental risks nuclear power hiv aids radon vaccines climate change and emerging infectious diseases are just some issues that may face them in the news media ballot box or doctor s office in order to make sound choices they need to get good information because their time is limited that information has to be carefully selected and clearly presented this book provides a systematic approach for risk communicators and technical experts hoping to serve the public by providing information about risks the procedure uses approaches from risk and decision analysis to identify the most relevant information it uses approaches from psychology and communication theory to ensure that it is understood this book is written in nontechnical terms designed to make the approach feasible for anyone willing to try it it is illustrated with successful communications on

a variety of topics

designed as an introduction the book covers core areas of the therapeutic relationship including core communication skills values and evidence based communication reflecting on self the value of small talk herons therapeutic interventions building confidence communicating across cultures and resolving conflict

being able to engage with service users and communicate effectively is a fundamental skill identified by the nmc and required of all mental health nurses the reality is that building rapport and developing therapeutic relationships does not come instinctively for everyone the authors have responded to this with a book that explains the different communication theories and models and goes on to show students how they work in the real world innovative exercises encourage reflection and enable students to practice their developing communication skills as they progress throughout the book the authors are focussed on promoting recovery and have put the service user at the centre of the discussion ensuring that their voice is heard key features covers the communication content of the new nmc standards and essential skills clusters for pre registration degree level nursing education focussed on promoting recovery and adopts a person centred approach interactive style using realistic scenarios and case studies making theory easy to apply to practice includes a chapter co authored by a service user offering a unique insight
