boomers fifty plus job seekers are competing for opportunities in the work force in numbers never before experienced the

competition for any opportunity is fierce with boomers competing with each other and younger job seekers this book takes you out of the box with proven techniques that will assist the boomer in finding and getting the position of his choice

work role transitions are among the most significant yet least understood forms of social change and how they affect individuals careers self concepts and organizational adjustment is of great practical and theoretical importance this book examines a comprehensive large scale study of the causes form and outcomes of job change focusing on middle to senior managers the authors ask how much job change is taking place assess who is most affected and evaluate the psychological consequences for the individual manager they discuss organizations handling of job transitions and provide a unique focus on women in management evaluating how their experience of careers and job change differs from men s

how pervasive is sex segregation in the workplace does the concentration of women into a few professions reflect their personal preferences the tastes of employers or sex role socialization will greater enforcement of federal antidiscrimination laws reduce segregation what are the prospects for the decade ahead these are among the important policy and research questions raised in this comprehensive volume of interest to policymakers researchers personnel directors union leadersâ anyone concerned about the economic parity of women

the authors are proud sponsors of the 2020 sage keith roberts teaching innovations award enabling graduate students and early career faculty to attend the annual asa pre conference teaching and learning workshop changing contours of work is an exploration of the american workplace in the larger context of an integrated global economy presented with engaging vignettes and rich data this fourth edition shows the reader how the old economy is now operating within the new economy and how that integration shapes the development of work opportunities authors stephen sweet and peter meiksins use an international comparative perspective revealing the historical transformations of work and identifying the profound effects that these changes have had on lives jobs and life chances this text supports the reader s understanding of the origins of current problems confronting working people in the new economy and contributes to a much needed dialogue about the strategies for liberating workers from poverty drudgery discrimination stress and exploitation

the bestselling author of rites of passage at 100 000 knows from experience how the most successful executives sell themselves into a new position this unique workbook puts their sophisticated techniques into the hands of every job hunter

the literature on rural america to the extent that it exists has largely been written by urban based scholars perpetuating out of date notions and stereotypes or by those who see little difference between rural and agricultural concerns as a result the real rural america remains much misunderstood neglected or ignored by scholars and policymakers alike in response emery castle offers the changing american countryside a volume that will forever change how we look at this important subject castle brings together the writings of eminent scholars from several disciplines and varying backgrounds to take a fresh and comprehensive look at the forgotten hinterlands these authors examine the role of non metropolitan people and places in the economic life of our nation and cover such diverse issues as poverty industry the environment education family social problems ethnicity race religion gender government public policy and regional diversity the authors are especially effective in demonstrating why rural america is so much more than just agriculture it is in fact highly diverse complex and interdependent with urban america and the international market place most major rural problems they contend simply cannot be effectively addressed in isolation from their urban and international connections to do so is misguided and even hazardous when one fourth of our population and ninety seven per cent of our land area is rural together these writings not only provide a new and more realistic view of rural life and public policy but also suggest how the field of rural studies can greatly enrich our understanding of national life
