this fully updated 2nd edition introduces students to education as a vehicle for social change and what that looks like in a practical and theoretical sense

drawing on a rich legacy of pictorial evidence images of childhood examines historical constructions of childhood and how they reinforce or challenge the prevailing view of childhood as a state of innocence each chapter explores how visual elements such as framing points of view and lighting as well as clothes accessories and body language help to construct our many different conceptions of children from members of the family unit and assumed gender roles to schooling and aesthetic objects through to their economic value and use in political propaganda skillfully navigating a multitude of perspectives on this topic paul duncum considers both how our ideas beliefs and values have changed throughout history and how some have remained unchanged he also explores the cultural notion of the child within and how this has contributed to the way adults perceive children the result is a text far broader in scope than any other in its field as art history is interweaved with contemporary popular culture to explore how we visually represent childhood in doing so the book highlights the real life implications that these representations have on children s rights

this new edition of a trailblazing textbook is written for students and professionals who need real world approaches to applying research

methodologies to solve practical problems within their institutions

bachelor thesis from the year 2021 in the subject social work grade 9 university of ljubljana faculty of social work language english abstract with this graduation thesis i explored the possibilities of cooperation between the youth sector and schools in the municipality of ljubljana first i explored how youth workers imagine this partnership namely what approaches activities and methods would they use when working in and with schools later i focused on possible chances and challenges which the youth sector and schools may deal with in the partnership finally i explored what youth workers think which practices and experiences from abroad could be adopted to slovenia and why for instance practices observed and experiences gained by participating in mobility programmes for youth workers youth workers work with young people to facilitate their personal social and political development through non formal and informal education counselling and leisure activities furthermore they support youth to have a voice in communities slovenian youth sector is highly engaged and active in working with young people where they are at slovenian youth spend most of the day in schools considering the previous facts having youth work in schools is not only beneficial for young people but also for schools and communities youth work in schools is a concept for delivering informal and non formal learning in formal settings for instance in primary and secondary schools
