the twelve years covered in this book saw the publication of the six volumes of georgian poetry the series of anthologies of contemporary verse edited by edward marsh the author describes the circumstances and personalities involved in their creation and critical reception in its prime before world war i the georgian movement attracted poets such as d h lawrence siegfried sassoon walter de la mare issac rosenberg and robert graves and exemplified the idealist spirit of modernity of its time

though historical rather than critical in purpose mr ross s book may well serve as a useful introduction to the modern period in english literature the author places the georgians in the perspective of their time reconstructs some of the conditions under which the georgian anthology was born describes and defines the georgian poetic temper charts the changes which occurred in the poetry of the 1910 1922period and accounts for the

downfall of the georgian poetic ideal certainly not as disingenuous as the critics of the late twenties and the early thirties inferred georgian poetry itself was a reaction to the lifeless verse of the turn of the century the movement attracted to it such writers as robert graves siegfried sassoon d h lawrence walter de la mare rupert brooke john drinkwater and john masefield and it notably exemplified the very early brave new spirit of modernity before during and after the first world war mr ross's meticulous and readable scholarship makes use of for the first time the some four hundred unpublished letters written to edward marsh by the contributors to the anthology though of course ancillary to the broad field of modern english literature the georgian revolt has a good deal of the entirely new and to many readers rather startling information in it about the period
