this new printing is not a newly revised edition only an enlarged one the revised edition of 1957 remains intact except that its short introduction has been greatly expanded to appear here as chapters i and ii the only other changes are technical and minor ones the correction of typographical errors and amended indexes of subjects and names

a very substantial and reliable introduction to social theory imaginatively written and extremely readable the new edition contains three valuable additional chapters william outhwaite professor of sociology university of sussex uk the long anticipated second edition of this original and approachable text examines social theory in the context of its traditions and historical development and explores its contemporary relevance in explaining society and understanding social relations the text has been substantially revised and includes three new chapters two of which depict theory in action and a new conclusion may and powell have also added new material on both emotion and globalisation situating social theory begins by charting the history of social theory examining its development in terms of the enlightenment project and the cultural and intellectual contexts in which theorists worked and constructed their ideas it goes on to critically examine traditions in social thought including hermeneutics phenomenology pragmatism critical theory structuralism actor network theory systems theory and feminisms in outlining the main ideas behind these traditions the form and content of modern social theory is situated within its historical roots enabling the reader to actively explore the arguments and reflect upon their strengths and weaknesses throughout the book the relationships between agency the social self and social structure provide a thematic coherence there is a comprehensive bibliography that will help the reader to explore theories of particular interest in greater depth situating social theory is an invaluable text for intermediate undergraduate courses within sociology and the wider social sciences and provides an essential source of reference for advanced undergraduates and postgraduate researchers

social theory is central to the disciplines of sociology cultural studies criminology and media studies many students however find it difficult to relate theory to their other courses projects dissertations and theses let alone imagine themselves producing theory in contrast to conventional social theory textbooks that restrict themselves to the description and analysis of theories and what other professionals have said about them this innovative book shows students how to use criticise and contribute to the development of theory treating theory as a variety of â visual workâ that is intimately connected with the process of empirical investigation and with the help of clear diagrams and carefully chosen quotations part 1 provides an exceptionally clear introduction to the different ways of practicing social theory part 2 provides a practical example of how to theorise by producing and demonstrating the

effectiveness of a new concept of reflexivity in the course of an outline of the history of the development of social theory since 1945 this is important reading for students and researchers in sociology and related fields

social theory has undergone dramatic changes over the past fifteen years the aim of this book is to provide a comprehensive survey of those changes and an authoritative statement on current trends of development in social thought the contents of the book range in a systematic way across the major traditions of social theory prominent today among the topics covered are the relationships between modern social theory and the classics of the late eighteenth and nineteenth centuries the connections between social theory and mathematical social science and the logical status of generalizations in the social sciences traditions of thought discussed include behaviourism symbolic interactionism parsonian theory analytical theory structuralism and post structuralism ethnomethodology structuration theory world systems theory marxism and critical theory

an upper division undergraduate social theory textbook that introduces the student to the multitude of different theorists this book helps students grasp theories and their relevance and application to modern life

this second edition of patrick baert s widely acclaimed social theory in the twentieth century has been brought right up to date with cutting edge developments in social theory today it offers an easy to read but provocative account of the development of social theory covering a range of key figures and classic schools of thought the authors also bridge the gap between philosophy and social theory locating the theoretical views of individuals such as giddens foucault and habermas within wider historical traditions

the advancement of social theory requires an analytical approach that systematically seeks to explicate the social mechanisms that generate and explain observed associations between events these essays written by prominent social scientists advance criticisms of current trends in social theory and suggest alternative approaches the mechanism approach calls attention to an intermediary level of analysis in between pure description and story telling on the one hand and grand theorizing and universal social laws on the other for social theory to be of use for the working social scientist it must attain a high level of precision and provide a toolbox from which middle range

theories can be constructed

introducing social theory traces the development of social theorizing from the classical ideas about modernity of durkheim marx and weber right up to a uniquely accessible review of contemporary theoretical controversies in sociology surrounding post modernity and reflexive sociology with great clarity the authors explain the ideas of seminal thinkers such as foucault bauman habermas beck bourdieu and giddens as well as paying increased attention to other important contributions from theorists such as margaret archer fredric jameson and george ritzer publisher description

this is a robust text challenging and provocative and one which students will benefit from reading layder guides the reader through a large body of relevant literature he draws attention to the strengths and weaknesses of particular approaches as he sees them and he is not afraid to offer his own judgements on the issues and problems he addresses professor john eldridge university of glasgow one of the most comprehensive incisive and readable treatments of the macro micro problem now available professor paul colomy university of denver this is a revised updated and enlarged version of the accessible authoritative first edition a jargon free textbook that provides an introduction to the core issues in social theory it includes chapter previews summaries and a glossary of key terms a problem focus that encourages students to acquire skills of argument and discussion a concluding chapter relating theory to social domains relevant examples from everyday life to illustrate key theoretical issues it is essential reading for undergraduate and postgraduate students of social and sociological theory

this book is a detailed and wide ranging account of the birth of social theory as a distinctive and modern intellectual genre focusing mainly on france heilbron traces the origins of modern social theory in the enlightenment and discusses the work of early theorists such as montesquieu and rousseau although he also deals with the scottish moral philosophers he examines the trend towards scientizing social theory in the decades around 1800 and analyzes the first attempts to formulate sociology as a relatively autonomous discourse culminating in the writings of comte heilbron argues that it was the natural sciences rather than moral philosophy or natural law which became the leading intellectual model in the nineteenth century the mathematician cordorcet and a physiologist cabanis were

the most prominent representatives of this trend combining social and intellectual history heilbron examines changes in social science within the context of wider developments in the intellectual domain and discusses the social conditions under which these changes occurred the rise of social theory is both a brilliant account of the pre history of sociology and a vivid portrayal of intellectual culture between the enlightenment and the age of romanticism it will be welcomed by students and researchers in the social sciences social and cultural history and the history of science

identifies and explores unresolved controversies and ambiguities in present day sociological theorizing

this text begins with an examination of the major schools of thought of social theory and provides an in depth analysis of its relevance to society in general each of the chapters on the major schools of thought review the basic principles along with a discussion of some of the major theorists their influences and their contributions to social theory each of these chapters concludes with a section which serves as a review and critical examination of the theory pub desc

the revised edition of this classic text integrates details of recent concepts in modern sociological thinking as with the first edition the book is based around the themes of structure and action the new edition provides more material on key issues in contemporary theory such as modern neo functionalism post structuralism and post modernism feminist theory the thinking of anthony giddens and historical sociology approaches

the revised edition of this widely acclaimed textbook provides a clear accessible and comprehensive introduction to modern social theory as with the first edition the book is based around the themes of structure and action after the introductory chapters which examine the nature of theory and its role in the social world the book then turns to theories of action and the inability of those theories to comprehend social structures in a coherent way part 1 covers parson s structural functionalism and the development of conflict theory and neofunctionalism rational choice theory symbolic interactionism ethnomethodology and structuration theory part 2 looks at structuralism structuralist marxism and the development of post structuralist and postmodernist theory part 3 examines critical theory and the

work of Jurgen Habermas in conclusion Ian Craib discusses current trends in theory and what might be expected in the future. This second edition has been revised throughout; there are new chapters on rational choice theory and structuration theory, and existing chapters have been extended to deal with the development of neofunctionalism, postmodernism, and the recent works of Habermas, as well as recent developments in other approaches. Throughout, the aim of the book is to demystify a difficult subject area, emphasising the practical and everyday nature of theoretical thinking in the context of making sense of a rapidly changing world. The late Ian Craib was lecturer in sociology at the University of Essex.

Treating social theory as an exciting intellectual journey in its own right, this new introductory level textbook presents the key ideas and concepts in social theory together with an account of the intellectual background from which they emerged, aimed at first year undergraduates studying sociology and all related disciplines in the social sciences and humanities. It provides an introduction to the major questions and debates facing social theorists and sociologists. Clearly designed presentation and layout features help readers navigate their way around the material, thus giving them the best chance of finding what they need quickly and easily. The book is supported by a companion website containing additional materials for both students and lecturers using the book, which is available from the link above.

Clear and accessible key concepts in critical social theory makes difficult ideas available to an undergraduate audience. Larry Ray, professor of sociology, University of Kent. The Sage Key Concepts series provides students with accessible and authoritative knowledge of the essential topics in a variety of disciplines, cross-referenced throughout. The format encourages critical evaluation through understanding, written by experienced and respected academics. The books are indispensable study aids and guides to comprehension. Key Concepts in Critical Social Theory provides brief accounts of the central ideas behind the key concepts, prepares students to tackle primary texts, giving them a point of reference when they find themselves stuck. Discusses each concept in an introductory way, offers further reading guidance for independent learning. This is an essential companion for reading for students across the social sciences who are exploring critical theory for the first time.

The second edition of *Classical and Contemporary Social Theory* provides wrap-around coverage of the classical social

theorists and influential sociological schools of thought in the contemporary period explained carefully and clearly throughout tim delaney reviews the key concepts and contributions from brilliant classical social thinkers and recent sociological thought spanning over 500 years of source material he weaves together profiles of leading theorists thorough descriptions of major academic and intellectual perspectives and discussion of prevailing themes of interest that have concerned theorists and sociologists throughout time and will likely continue to do so in the future the book emphasizes methods of investigation and application in its overview of the field by challenging readers to think about problems critically and in relation to key sociological theories and to also apply their sociological understanding to real everyday events in this new edition delaney revisits the classical period and highlights the special contributions of american social theorists and their impact on the diversity of thought leading into the contemporary era he attends to later schools of thought and weaves in important updates related to critical race theory and globalization with updated context and further applications the second edition of classical and contemporary social theory is a perfect addition to combined courses in social theory

social theory is the theoretical core of the social sciences clearly distinguishable from political theory and cultural analysis this book offers a unique overview of the development of social theory from the end of the second world war in 1945 to the present day spanning the literature in english french and german it provides an excellent background to the most important social theorists and theories in contemporary sociological thought with crisp summaries of the main books arguments and controversies it also deals with newly emerging schools from rational choice to symbolic interactionism with new ambitious approaches habermas luhmann giddens bourdieu structuralism and antistructuralism critical revisions of modernization theory feminism and neopragmatism written by two of the world s leading sociologists and based on their extensive academic teaching this unrivalled work is ideal both for students in the social sciences and humanities and for anyone interested in contemporary theoretical debates
