phigix me me a cranck all of my life s observations thinking reminiscing etc put in a book for everyone to read for anytime of their lives a must have since it signifies and denotes the technological wizardry which i have created and developed as systems including my economics and the scientific discipline of biology as advanced communication bio tech engineering which is in a different book bio techno works of bio engineering and its principles which will and as per the factual worldwide records as my achievements has and have paved and pave the way for the regenerative bio technology also now for everyone why you must purchase this book p other than the fact that i have cursed everyone to buy it or else is that i have explained the entire subject of physics and particle matter in such an elucidative manner and style that even an ordinary person even without any or zero or even a minus knowledge of the subject matter of physics and particle physics can very well and easily understand the same including children right from kindergarten itself so that everyone can now become an expert on physics my book contains the entire factual information on physics and its theories it also outlines the principles of particle physics which factually prove that infinite speeds in infinite exponential speeds in

excess of the speed of light itself are possible for light and matter to travel anywhere in the universe or creation itself now my role as me being myself and since being the unusual personality that i am created this emrhc processor which can utilize and create and store energy and particle rf transfer state as infinite informational perpetual processing system can store infinite information in parallel random and sequential processing each within one another about the entire information of all of creation right from its start to its end within a single processing chip the size less than the tip of my fingernail further more my book details the factual creation the engineering and the developmental structure of the process of the system and the mechanism and of particle physics of time travel itself so you can have the opportunity of a life time to become a time traveler and i am the factual creator and developer of the time machine this book reveals how to make one and become a time traveler itself reality is now bent the adventure of a life time

written to inspire and cultivate the ability to design and analyze feasible control algorithms for a wide range of engineering applications this comprehensive text covers the theoretical and practical principles involved in the design and analysis of control systems from the development of the mathematical models for dynamic systems the author shows how they are used to obtain system response and facilitate control then addresses advanced topics such as digital control systems adaptive and robust control and nonlinear control systems
