where did we come from why are we here is there a god in our modern world many people yearn for answers to these most fundamental of life's questions having become disillusioned with trite explanations and troubled by narratives that deny their intuitive spirituality beginning with some of our most ancient ancestors wakan tanka traces the evolution of humanity through the ages citing paleontological and archaeological discoveries along with recent genetic evidence it recounts how mankind evolved from the earliest mammals into anatomically and behaviourally modern humans wakan tanka describes how human culture and spirituality evolved in concert with anatomy showing how humankind has since very ancient times had an instinctual moral sense it discusses how our spirituality has given us an appreciation for both the aesthetic and divine aspects of life as reflected in our cultures and artistic endeavours by comparing philosophical and religious views of

creation with modern scientific theory wakan tanka reaches the conclusion that rather than conflicting these views are remarkably similar and equally valid ways of describing the same reality indeed our scientific knowledge and spiritual beliefs can be harmonized providing us with a deeper understanding of ourselves of creation and of life s purpose
