the author develops new perspectives on historiography by applying psychoanalytic insight into the key issues of narrative time and subjectivity in the construction of historical accounts

leonard meyer proposes a theory of style and style change that relates the choices made by composers to the constraints of psychology cultural context and musical traditions he explores why out of the abundance of compositional possibilities composers choose to replicate some patterns and neglect others meyer devotes the latter part of his book to a sketch history of nineteenth century music he shows explicitly how the beliefs and attitudes of romanticism influenced the choices of composers from beethoven to mahler and into our own time a monumental work most authors concede the relation of music to its cultural milieu but few have probed so deeply in demonstrating this interaction choice probes the foundations of musical research precisely at the joints where theory and history fold into one another kevin korsyn journal of american musicological society a remarkably rich and multifaceted yet unified argument no one else could have brought off this immense project with anything like meyer s command robert p morgan music perception anyone who attempts to deal with romanticism in scholarly depth must bring to the task not only musical and historical expertise but unquenchable optimism because leonard b meyer has those qualities in abundance he has been able to offer fresh insight into the romantic concept donal henahan new york times

this book offers the reader a critical and interdisciplinary introduction to brazilian history combining a didactic approach with insightful historical analysis it discusses the main political cultural and social developments taking place in the latin american country from 1500 to 2010 the historical narrative leads the reader step by step and in chronological succession to a clear understanding of the country s three main historical periods the colonial period 1500 1822 the empire 1822 1889 and the republic 1889 present each phase is treated separately and subdivided according to the political developments and successive regional forces that controlled the nation s territory throughout the centuries at the end of each section an individual chapter discusses the foremost cultural and artistic developments of the period engaging perspectives on literature music and the visual arts including cinema through its multifaceted approach the book explores economic history foreign policy education and social history as well as literary and artistic history to reveal the multiethnic and culturally diversified nature of brazil in all its fullness

this book is a critique of cambridge school historical contextualism as the currently dominant mode of history of political thought drawing

upon michael oakeshott's analysis of the logic of historical enquiry while acknowledging that the early cambridge school work represented a considerable advance towards genuinely historical histories of political thought this work identifies two major historiographical problems that have become increasingly acute the first is general an insufficiently rigorous understanding of the key concept of pastness necessarily presupposed in historical enquiry of all kinds the second is specific to histories of political thought a failure to do justice to the varieties of past political thinking especially differences between ideology and philosophy in addressing these problems the author offers a comprehensive account of the history of political thought that establishes the parameters not just of histories of ideological thinking but also of the much disputed character of histories of political philosophy since rethinking history of political thought in oakeshottian terms requires resisting current pressures to turn history into the servant of currently felt needs the book offers a sustained defence of the cultural value of modernist historical enquiry against its opponents an important work for political theorists historians of political thought and those researching intellectual history the philosophy of history and proposed new directions in contemporary historical studies
