abstract constraints are an important enabling technology for interactive graphics applications however today s constraint based systems are plagued by several limitations and constraints have yet to live up to their potential
juno 2 is a constraint based double view drawing editor that addresses some of these limitations
constraints in junos 2 are declarative and they can include non linear functions and ordered pairs moreover the junos 2 solver is not limited to acyclic constraint systems
juno 2 also includes a powerful extension language that allows users to define new constraints the system demonstrates that fast constraint solving is possible with a highly extensible fully declarative constraint language the report describes what it is like to use junos 2 outlines the methods that junos 2 uses to solve constraints and discusses its performance
