essais sur l art de la photographie

study of nostalgic representations of the maternal the home and childhood in the
literature and photographs of early 20th century artists

this book provides a lively introduction to the work of roland barthes one of the
twentieth century s most important literary and cultural theorists the book covers all
aspects of barthes s writings including his work on literary theory mass
communications the theatre and politics moriarty argues that barthes s writing must
not be seen as an unchanging body of thought and that we should study his ideas in
the contexts within which they were formulated debated and developed

the uprising which shook france in may 1968 also had a revolutionary effect on the country s most prominent film journal under editors jean louis comolli and jean narboni cahiers du cinéma embarked on a militant turn that would govern the journal s work over the next five years inspired by marxist and psychoanalytic theory the red years of cahiers du cinéma produced a theoretical outpouring that was seminal for the formation of film studies and is still of vital relevance for the contemporary audiovisual landscape the red years of cahiers du cinéma 1968 1973 gives an overview of this period in the journal s history and its aftermath combining biographical accounts of the critics who wrote for cahiers in the post 1968 period with theoretical explorations of their key texts

as one of the most prominent voices from and about the french caribbean gisèle pineau has garnered significant scholarly attention however this interest has culminated in precious few volumes devoted entirely to the author and her work in response to this lack of in depth critical attention reimagining resistance in gisèle pineau s works brings together a range of perspectives from both sides of the atlantic and across the pacific to explore the unique ways in which gisèle pineau s works redefine the concept of resistance particularly as it relates to gender race history and antillean identity as this volume ultimately demonstrates resistance holds up a mirror to the political economic and cultural forces that have shaped the past construct the present and build the future it argues that pineau s characters open the narrative frame for reading them and move us beyond the categories of the wholly defiant or the inherently complicit above all as they invite us to reimagine resistance they expose our expectations and hopefully shift our understanding about what it means to rise and to fall in a world we seek to call our own
