*Girls Feminist Blogging in a Postfeminist Age* explores the practices of US-based teenage girls who actively maintain feminist blogs and participate in the feminist blogosphere as readers, writers and commenters on platforms including blogspot, Facebook, Twitter and Tumblr. Drawing on interviews with bloggers between the ages of fifteen and twenty-one as well as discursive textual analyses of feminist blogs and social networking postings authored by teenage girls, Keller addresses how these girls use blogging as a practice to articulate contemporary feminisms and craft their own identities as feminists and activists. In this sense, feminist girl bloggers defy hegemonic postfeminist and neoliberal girlhood subjectivities, a finding that Keller uses to complicate both academic and popular assertions that suggest teenage girls are uninterested in feminism. Instead, Keller maintains that these young bloggers employ digital media production to educate their peers about feminism, connect with like-minded activists, write feminist history and make feminism visible within popular culture practices that build upon and continue a lengthy tradition of American feminism into the twenty-first century. *Girls Feminist Bloggers in a Postfeminist Age* challenges readers to not only reconsider teenage girls' online practices as politically and culturally significant but to better understand their crucial role in a thriving contemporary feminism.

Who are the girls that helped build America? Conventional history books shed little light on the influence and impact of girls' contributions to society and culture. This oversight is challenged by Girl Museum and their team, who give voices to the most neglected yet profoundly impactful historical narratives of American history. *Young Girls Exploring American Girls History* through 50 historic treasures showcases girls and their experiences through the lens of place and material culture. Discover how the objects and sites that girls left behind tell stories about America that you have never heard before. Readers will journey from the first peoples who called the continent home to 21st century struggles for civil rights, becoming immersed in stories that show how the local impacts the global and vice versa. As told by the girls who built America, their stories, dreams, struggles and triumphs are the centerpiece of the nation's story as never before, helping to define both the struggle and meaning of being American. This full color book is a must-read for those who yearn for more balanced representation in historic narratives as well as an inspiration to young people showing them that everyone makes history. It includes color photographs of all the treasured objects explored.
