whether on the ground or in the mind gardens carry meaning they reflect social and aesthetic values and may express hope anticipation or grief throughout history they have provided a means of physical survival in creating and maintaining gardens people construe and construct a relationship with their environment but there is no single meaning carried in the word garden as idea and practice it reflects cultural differences in beliefs values and social organisation it embodies personal community even national ways of seeing and being in the world there are ten essays in gardens of history and imagination each of which examines the role of gardens and gardening in the settlement of new south wales and in growing a colony and a state they explore the significance of gardens for the health of the colony for its economy for the construction of social order and moral worth no less do they reveal the significance of forming and reforming personal identities in this process for the immigrants gardening was an act of settlement it was also a statement of possession for individuals and for britain for a long time it was with memories of home often selective and idealised that settlers made gardens but as the colony developed its own character so did gardening possibilities and practices

whether a small plot in the backyard of an inner urban home or a capital city's sprawling botanic garden australians have long desired a patch of dirt to plough or enjoy reading the garden explores our deep affection for gardens and gardening and illuminates their numerous meanings and uses from european settlement to the late twentieth century cover

christopher thacker tells the history of gardens from their origins in the natural paradises of greek myth to the present day studying individual gardens or garden topics which are representative of an age or region he builds up a comprehensive survey of the gardens and garden theories of an era
