neuromorphic engineering has just reached its 25th year as a discipline in the first two decades neuromorphic engineers focused on building models of sensors such as silicon cochleas and retinas and building blocks such as silicon neurons and synapses these designs have honed our skills in implementing sensors and neural networks in vlsi using analog and mixed mode circuits over the last decade the address event representation has been used to interface devices and computers from different designers and even different groups this facility has been essential for our ability to combine sensors neural networks and actuators into neuromorphic systems more recently several big projects have emerged to build very large scale neuromorphic systems the telluride neuromorphic engineering workshop since 1994 and the capocaccia cognitive neuromorphic engineering workshop since 2009 have been instrumental not only in creating a strongly connected research community but also in introducing different groups to each other s hardware

many neuromorphic systems are first created at one of these workshops with this special research topic we showcase the state of the art in neuromorphic systems

best selling book for nmat management aptitude test with objective type questions as per the latest syllabus given by the graduate management admission council gmac nmat management aptitude test preparation kit comes with 10 practice tests and 6 sectional tests with the best quality content increase your chances of selection by 16x nmat management aptitude test prep kit comes with well structured and 100 detailed solutions for all the questions clear exam with good grades using thoroughly researched content by experts
