this is not solely an addendum to the previous volumes but stands well on its own the book s physical and emotional core lies in the baldaev drawings which are ethnographic artistic and surprisingly moving his unflinching documentation reveals a world

of systematic brutality and violence where prisoners flaunted their savagery on their skin and punished their adversaries poseurs and the weak by etching humiliations into them. This is the final volume of drawings and photographs from Danzig Baldaev and Sergei Vasiliev which completes the Russian Criminal Tattoo Encyclopaedia Trilogy. Danzig Baldaev documented over three thousand tattoos during a lifetime working as a prison guard. His recording of this esoteric world was reported to the KGB who unexpectedly supported him, realising the importance of being able to establish facts about convicts by reading the images on their bodies. The motifs depicted represent the uncensored lives of the criminal classes ranging from violence and pornography to politics and alcohol. The illustrated criminals of Russia tell the tale of their closed society with an introduction by historian Alexander Sidorov exploring the origin of Russian criminal tattoos and their meaning today.

The photographs, drawings and texts published in this book are part of a collection of more than 3 000 tattoos accumulated over a lifetime by a prison attendant named Danzig Baldaev. Tattoos were his gateway into a secret world in which he acted as ethnographer, recording the rituals of a closed society. The icons and tribal languages he documented are artful, distasteful, sexually explicit and sometimes just strange, reflecting as they do the lives and traditions of Russian convicts: skulls, swastikas, harems of naked women, a smiling Al Capone, medieval knights in armor, daggers sheathed in blood, benign images of Christ, sweet-faced mothers and their babies, armies of tanks and a horned Lenin. These are the signs by which the people of this hidden world mark and identify themselves. With a foreword by Danzig Baldaev and an introduction by Alexei Plutser Sarno exploring the symbolism of the Russian criminal tattoo.

Focusing on the Russian criminal tattoos, this second volume features drawings and photographs which depict an extraordinary world where a criminal's rank, history and sexual preference are indelibly displayed on their bodies.

This brief studies the important role that tattoos play in prison culture and examines its unique manifestation among minority inmates. This work aims to provide a better understanding of prison group culture, particularly among social marginal groups. Through the lens of Russian immigrants in Israeli prisons, Russian immigrants currently represent approximately 25% of the total Israeli prison population and this book examines how tattoos show an important form of rebellion amongst this group as tattoos

are forbidden in some forms of islam and judaism and the israeli prison service confiscates over 200 homemade tattoo devices per year this is a significant phenomenon both before and during incarceration this work examines how despite the transition to israel the main social codes of russian prisoners are still dominant and help segregate this group from the larger prison population it provides a lens to understand russian criminal activity in israel and in a larger context the modes of social cohesion and criminal activity of organized crime groups operating in prison systems this work will be of interest to researchers studying the organized crime and the criminal justice system russian organized crime in particular as well as related studies of immigration demography and social cohesion
