this volume addresses key contemporary aspects in cycling policy practice and research cycling has seen a sharp increase in scientific and policy attention in the past decade the amount of research has surged over the past couple decades also levels of cycling have increased substantially in many countries and cities and many areas have seen increases in infrastructure investments in addition the last decade has seen innovations in bicycle

technology in particularly the rise of electric assist e bikes and dock less bike sharing schemes this volume reviews the state of the art on cycling from various angles as such it explores planners engineers policy makers provisions for cycling of cyclists and non cyclists travel behaviour and resulting consequences for individuals and society one focus is on demand side aspects including the use of bicycles and their users including patterns and trends in cycling determinants of cycling and modelling of cycling another focus is on impacts of cycling such as emissions safety aspects as well as changes during the covid pandemic contemporary overview of key aspects in cycling research and bicycle planning a focus on design for cycling behavior of cyclists and consequences of cycling

how well do the places where we live support the wellbeing of older adults the canadian population is growing older and is reshaping the nation s economic social and cultural future however the built and social environments of many communities neighbourhoods and cities have not been designed to help canadians age well bringing together academic research practitioner reflections and personal narratives from older adults across canada this cutting edge text provides a rare spotlight on the local implications of aging in canadian cities and communities it explores employment housing transportation cultural safety health planning and more to provide a wide ranging and comprehensive discussion of how to build supportive communities for canadians of all ages

it took an oil crisis in the 1970s for the dutch to realize that they simply couldn t afford to live without bicycles and today the dutch lead the world in urban cycling fifty years later another crisis the pandemic has led to a boom in bicycling and a radical rethinking of the future of urban mobility demonstrating the possibility of a car free urban future the pandemic bikeboom is one of the very few bright spots in an otherwise terrible time and an opportunity we cannot waste the climate crisis is all too real the inequities in our cities too severe to allow the us to backslide to the status quo of car dependence in bicycle city riding the bike boom to a brighter future cycling expert daniel piatkowski argues that the bicycle is the best tool that we have to improve our cities the car free urban future where

cities are vibrant with access to everything we need close by may be less bike centric than we think but bikes are a crucial first step to getting americans out of cars bicycle city is about making cities better with bikes rather than for bikes piatkowski offers a vision for the car free urban future that so many americans are trying to create with no shortage of pragmatic lessons to get there electric bikes are demonstrating the ability of bikes to replace cars in more places and for more people cargo bikes with electric assistance are replacing suvs for families and delivery trucks for freight at the same time mobility startups are providing new ownership models to make these new bikes easier to use and own ushering in a new era of pedal powered cities bicycle city brings together the latest research with interviews anecdotes and case studies from around the world to show readers how to harness the post pandemic bikeboom piatkowski illustrates how the future of bicycling will facilitate the necessary urban transitions to mitigate the impending climate crisis and support just and equitable transport systems

tells how to select the right bike offers advice on safe riding and discusses tours racing and workouts

this publication is part of wp 29 how it works and how to join it series it examines issues progress and challenges in efforts to improve the safety and wellbeing of motorcycle riders through the use of approved motorcycle helmets the growth in motorcycles is accompanied by an increase in serious and fatal accidents evidence shows that once internationally harmonized helmet regulations such as the un regulation no 22 type approval system for helmets are in place and laws on helmet wearing are enforced these trends tend to reverse in examining the relationship of income growth and national motorcycle fleet expansion this study argues the socio economic case for introduction of helmet regulations and their enforcement by delivering a benefit cost analysis of taking such legislative actions

Recognizing the mannerism      ways to get this books
