for approximately six hundred years after the death of muhammad the founder of islam the muslim community formed a cohesive state called the caliphate this book follows the four distinct caliphates rightly guided umayyad abbasid and fatimid through their periods of leadership to the state s prolonged downfall at the hands of the seljuqs and the crusaders and its ultimate defeat by the ottoman empire this text includes a focus on contributions made to the arts literature medicine astronomy science and mathematics among other disciplines particularly during the golden age of the caliphate spanning the eighth and ninth centuries

examines the history of the islamic empire

this must have volume provides an overview of the rise and expansion of the islamic empire muslim conquests and later dynasties and empires author don nardo presents a thorough and sensitive study of islam s past and present readers will learn about muhammad and early muslim conquests they will learn about islam s golden age and its existence today full color photographs maps illustrations timelines and sidebars support the text

this must have volume provides an overview of the rise and expansion of the islamic empire muslim conquests and later dynasties and empires author don nardo presents a thorough and sensitive study of islam s past and present readers will learn about muhammad and early muslim conquests they will learn about islam s golden age and its existence today full color photographs maps illustrations timelines and sidebars support the text

the islamic empire arose spectacularly in the 7th century and exercised influence over a large geographic area until its fall to mongol invaders in the 13th century the rulers called caliphs ushered in a new islamic civilization with customs and practices both distinct from and partially influenced by those of the areas it

conquered the reigns of these caliphates including the abbasid caliphate which presided at the time of the islamic golden age are surveyed in this captivating volume readers will learn about the expansion of islamic influence and the flourishing of scholarship in science math and more during this time

have you ever wondered what life was really like in the islamic empire what did people wear what did they eat what sorts of games did kids play through history recipes crafts activities and games this series gives you a chance to experience what life was like throughout history

in world history history of islam is a glorious chapter in fact muslim history involves the history of the islamic faith as a religion and as a social institution through various periods islam made many a long stride and its influence spread far off over the globe apart from religion muslims made considerable contribution in areas like philosophy literature arts law economy science medicine and commerce etc at the academic level muslim philosophers educationists and experts of islamic law have made great contributions the evolution of islam has impacted the political economic and military history of an enormous geographical region a century after the demise of prophet muhammad pbuh the islamic empire extended from the atlantic ocean in the west to central asia in the east islamic civilization gave rise to many centers of culture and science and produced notable philosophers scientists astronomers mathematicians doctors and nurses during the golden age of islam in today s world islam is one of the major religions and perhaps there is hardly any corner of the world where muslims are not found history of islam is a vast subject here it is in a concise form this modest work a comprehensive book in one cover is an effort in the direction of recording the history of islam in nutshell authentically this excellent book is an asset for all scholars and academics in all spheres of learning

islam the most misunderstood religion in the west also came under intense

scrutiny after the incident of september 11 2001 in the west some people made genuine effort to understand this religion and its followers whereas there were people who put all their efforts to malign islam and its founder the troubled and unstable politics of the middle east along with the rise of islamic fundamentalism mistakenly has created the impression that all muslims are violent and fundamentalists while writing the history of islam most of the western writers tend to focus too much on the ottoman history these writers ignore the great muslim civilizations which existed in spain north africa egypt iran and india today the islamic civilization has declined but it has its socio political impact on the world and in order to understand the current political plight of the islamic world its past also needs to be assessed in all regions of the world

this book enables you to explore history from a new perspective see what art reveals about historical civilizations and how history is portrayed through the art and architecture that remains each title focuses on a significant period of events politic culture and every day life this book supports the qca schemes of work for history at key stage 2 and 3 with relevance to the art curriculum at key stage 3 and includes biographies of influential people

explores the islamic empire and its religious practices around the world

the middle ages were a period of tremendous cultural and scientific advancement in the islamic empire ideas and inventions that shaped our world did you know that the numbers you use every day arabic numerals are a muslim invention the marching band you hear at football games has its roots in the middle east you are drinking orange juice at breakfast today thanks to islamic farming innovations the modern city s skyline was made possible by islamic architecture the muslim world has often been a bridge between east and west but many of islam s crucial innovations are hidden within the folds of history in this important book bryn barnard uses short engaging text and gorgeous full color

artwork to bring islam's contributions gloriously to life chockful of information and pictures and eminently browsable the genius of islam is the definitive guide to a fascinating topic

saladin remains one of the most iconic figures of his age as the man who united the arabs and saved islam from christian crusaders in the 12th century he is the islamic world's preeminent hero ruthless in defence of his faith brilliant in leadership he also possessed qualities that won admiration from his christian foes he knew the limits of violence showing such tolerance and generosity that many europeans appalled at the brutality of their own people saw him as the exemplar of their own knightly ideals but saladin is far more than a historical hero builder literary patron and theologian he is a man for all times and a symbol of hope for an arab world once again divided centuries after his death in cities from damascus to cairo and beyond to the arabian peninsula and the gulf saladin continues to be an immensely potent symbol of religious and military resistance to the west he is central to arab memories sensibilities and the ideal of a unified islamic state in this authoritative biography historian john man brings saladin and his world to life in vivid detail charting his rise to power his struggle to unify the warring factions of his faith and his battles to retake jerusalem and expel christian influence from arab lands saladin explores the life and the enduring legacy of this champion of islam and examines his significance for the world today

history of the islamic empire during the reigns of the omayyad and abbasid dynasties

contains historical information time lines map photographs and hands on activities that describe the islamic empire

dr kennedy gives a full and clear account of the near east in the formative period of islamic society beginning with the life of muhammad and the birth of islam he

goes on to examine the great arab conquests and the golden age of islam from the eighth to the tenth centuries the book closes with the period of political fragmentation in the tenth and eleventh centuries when the early unity was lost never to be recovered

amid the upheaval in the islamic world following muhammad s death the umayyad caliphate lasted for less than a century but in that time it managed to become one of the most influential of the major caliphates established following him its official existence was from 661 750 and the rulers were the male members of the umayyad dynasty roughly translated from arabic as the sons of umayyah its primary base of power was in syria following the creation of a dynastic hereditary rule headed by one of syria s long lasting governors muawiya ibn abi sufyan like the other caliphates around that time the umayyads existed in a constant state of internal struggle and external conflict battles over succession especially over which lineages possessed the more legitimate claim to power plagued the early years of the caliphate in syria the most significant were the first muslim civil war in 661 and the second civil war in 680 the official right to become caliph passed between branches of the umayyad clan but syria and damascus continued to be the main seats of power even as the kingdom expanded to include the iberian peninsula the transoxiana the maghreb and sindh the umayyad caliphate became renowned for being a center of authoritarian power education and cultural development the population was multiethnic and consisted of local peoples conquered throughout africa europe and asia including regional christians and jews at its greatest extent the empire extended over an area of 4 300 000 sq miles with over 33 000 000 residents it was one of the largest known empires in history even considering modern developments and a precursor to the golden age of islam scholars throughout history have remained divided on the best way to interpret the legacy left by the umayyads on the one hand they were able to unite a massive array of people and exert control over

millions of square miles on the other hand they became infamous for their treatment of religious and ethnic minorities were seen as turning away from god in favor of material excess and managed to be overthrown by the millions they isolated through their policies through it all they offered lessons for future muslim kingdoms about the dangers of trying to combine religious beliefs with secular administration in a diverse world and ultimately the umayyads would be replaced by the far more intelligent and crafty abbasids who managed to wield powerful tools like propaganda to undermine their opponents the ottoman empire and safavids would also vie for power in persia after the caliphates and the ottomans in particular spent several centuries expanding their empire s size power and influence bumping up against eastern europe and becoming one of the world s most important geopolitical players it was a rise that would not truly start to wane until the 19th century preserving its mixed heritage coming from both its geographic position rising above the ashes of the byzantine empire and the tradition inherited from the muslim conquests the ottoman empire lasted more than six centuries its soldiers fought died and conquered lands on three different continents making it one of the few stable multi ethnic empires in history and likely one of the last thus it s somewhat inevitable that the history of its decline is at the heart of complex geopolitical disputes as well as sectarian tensions that are still key to understanding the middle east

details the growth of the islamic community and its rise to a position of global power profiling the leaders of muslim dynasties the expansion of their territories and conflicts between them and other cultures

islam is one of the world s major religions and in ancient times the islamic world was one of the world s major societies this title provides a sweeping look at the important contributions people of the islamic world made to learning architecture trade the military and religion readers will learn about the birth of islam through the height of islamic rule life in the ottoman empire and the culture s decline

coverage of architecture education class structure trade and the role of men and women supports elementary social studies curricula readers will walk away with an understanding of daily life in the culture as well as its long standing legacy
