the social sciences have made fundamental contributions to the understanding of the economic political and social life of nations in the past century social science libraries now have an important role to play in the context of the information society as significant sources of academic and social knowledge this work provides information on the development and use of digital resources in the social sciences emphasizing best practices an articulation of some of the problems presented to providing these resources and a view to the use of these resources to support sustainable development

this second edition is an intensively revised and updated version of the book matlab and design recipes for earth sciences it aims to introduce students to the typical course followed by a data analysis project in earth sciences a project usually involves searching relevant literature reviewing and ranking published books and journal articles extracting relevant information from the literature in the form of text data or graphs searching and processing the relevant original data using matlab and compiling and presenting the results as posters abstracts and oral presentations using graphics design software the text of this book includes numerous examples on the use of internet resources on the visualization of data with matlab and on preparing scientific presentations as with the book matlab recipes for earth sciences 4rd edition 2015 which demonstrates the use of statistical and numerical methods on earth science data this book uses state of the art software packages including matlab and the adobe creative suite to process and present geoscientific information collected during the course of an earth science project the book s supplementary electronic material available online through the publisher s website includes color versions of all figures recipes with all the matlab commands featured in the book the example data exported matlab graphics and screenshots of the most important steps involved in processing the graphics

elections and technology are inseparable in today s world technology is regarded as a technical instrument to attain certain electoral goals such as efficiency and effectiveness as well as to ensure a high quality process and integrity of results however in practice the proposition of adopting technology in elections is often not accompanied by deep thinking and adequate preparations consequently the use of technology often becomes a paradox the intention being to solve a problem but new problems are created instead based on this observation this guide has been written to provide a tool for election administrators or nations which like indonesia are considering the use of technology in elections in indonesia technology has been widely used since the 2014 general elections especially to meet open data principles in elections despite this the general elections of 1999 2004 2009 and 2014 and various regional elections have used electoral technology for only two main objectives data tabulation and transparency of the electoral process at the time of writing e voting and e recapitulation are being discussed for implementation in indonesia s future elections as well as providing step by step guidance and points of consideration for various decision makers this guide also features various types of voting technology that exist to date accompanied by the experiences of several countries in using them the guide describes the various types of electoral technology that have been used in indonesia capturing their track records and the

lessons learned lessons that may be useful to other countries demonstrating that voting technology does not need to be limited to e voting
