in today's IT architectures, microservices and serverless functions play increasingly important roles in process automation, but how do you create meaningful, comprehensive and connected business solutions when the individual components are decoupled and independent by design? Targeted at developers and architects, this book presents a framework through examples, practical advice and use cases to help you design and automate complex processes as systems are more distributed, asynchronous and reactive. Process automation requires state handling to deal with long running interactions. Author Bernd Ruecker demonstrates how to leverage process automation technology like workflow engines to orchestrate software, human decisions or bots. Learn how modern process automation compares to business process management, service-oriented architecture, batch processing, event streaming and data pipeline solutions. Understand how to use workflow engines and executable process models with BPMN. Understand the difference between orchestration and choreography and how to balance both.

Need answers quickly? SharePoint 2013 on Demand provides those answers in a visual, step-by-step format. We will show you exactly what to do through lots of full-color illustrations and easy-to-follow instructions. Inside the book, take a tour of SharePoint to see what you do create a SharePoint site from built-in templates, use Newsfeed and My Site to stay connected with social networking, create a blog and community site to collaborate and share ideas, create lists and libraries to store data and documents on a site, add built-in apps or ones from the SharePoint Store to a site for extended functionality, synchronize documents to a SkyDrive on SharePoint, work with office programs and documents on SharePoint, upload and use documents and media files on pages, customize pages with web and app parts, change site permissions for enhanced security. Illustrations with matching steps: tasks are presented on one or two pages, numbered steps guide you through each task. Did you know? Alerts notify you of tips and techniques.
