this book discusses skill formation upskilling of workers and their interaction with technological change in gulf countries heavy dependence on oil the dutch disease and the high incidence of unskilled foreign workers have caused serious structural imbalances in the labour market in the gulf the author shows that success of economic

development strategies to address such imbalances are all contingent upon the development of adequate and appropriate skills in the region this book confirms the role and impact of the deficiencies in the educational system alongside the well established effects of the excessive use of uneducated foreign workers and lack of incentives in the labour market a comprehensive investigation of the skill problem and an elaborate in depth analysis to assess the causes consequences and relationships between poor skills and technological performance are highlights of this book this is an ideal resource for policy makers in the gulf region and researchers of the topic

the persian gulf 2021 22 is the ninth in the annual persian gulf series published by mei nd it is a detailed analysis of india s bilateral relations with the nine countries in the persian gulf region and the gulf cooperation council gcc and focuses on the developments of 2020 and 2021 it offers a comprehensive account of the internal politics economic situations foreign policy security challenges and social developments in the persian gulf countries and india s strategic political economic and cultural engagements with the region the book also offers policy recommendations for india based on the current state of affairs

the persian gulf 2018 is sixth in the series published by mei nd and examines india s bilateral relations with the countries along the persian gulf namely bahrain iran iraq kuwait oman qatar saudi arabia uae and yemen it focuses on developments during 2017 and offers a comprehensive account of the strategic political economic and cultural aspects of bilateral developments along with specific policy recommendations for india the book also provides an in depth analysis of internal dynamics of these countries

many countries in the world have made great efforts to remedy the water shortage by providing financial and technical backing for water desalination treatment of wastewater and improved management and conservation techniques water ministries universities and research centres have supported scientific research and applied the most recent technologies in search of new and alternative water supplies laws have been promulgated economic and public relation campaigns developed to promote and encourage the practice of efficient water use and the conservation of this scarce commodity this book covers water resources and management and provides a new vision of water resources management water conservation and legislations water law and modern techniques of water resources investigation

this volume complements the best seller and award winning general maps of persia praised by dr john hébert chief of the geography and map division of the library of congress this carefully researched work is a must have item in any collection of research materials on the history of cartography i cannot wait for the arrival of subsequent volumes of further great scholarship and readable map reproductions on

other detailed aspects of the history of mapping of persia encouraged by numerous commending reviews in five languages english french german persian and armenian and gratifying testimonials from many renowned authorities in the fields of history of cartography and iranian studies cyrus alai continued his research and collected further material to produce the present volume special maps of persia 1477 1925 covering every map of that region other than general maps thus it not only complements the general maps of persia it is also a completely new volume in its own right and providing an even closer insight into the region the book is divided into nine chapters historical maps district maps frontier maps town maps political maps etc like the preceding volume it has a dual character being both a carto bibliography and a mapping history of persia it contains 761 map entries of which 409 are illustrated mostly in colour concise related historical accounts precede every chapter and section and essential historical notes are also supplied within many of the map entries undoubtedly this book is a treasure house not just for cartographers but also historians social historians linguists and archaeologists
