historical representations of asian americans in textbooks and teacher manuals used in our
elementary and secondary schools poignantly tell us that generations of children are growing
up being fed this single story about asian americans as hartlep and scott write asian

own and be used as a political instrument to shame the blacks for their underachievement
and their fight for equality over and over again the media has been telling a single story about
asian americans to the public for the past fifty years the consequence of this fabricated story
is that it discourages others even asian americans themselves from believing in the validity of
their struggles linshi 2014 p 1
