essay from the year 2017 in the subject politics topic peace and conflict security grade n a brunel university course intelligence security studies language english abstract the issue of the mutual boundaries between counterintelligence ci and security sy activities and responsibilities has been largely engaged on a theoretical level over the last few decades however the lack of an accurate and widely agreed distinction has generated a certain confusion about what the actual distribution of the responsibilities of each activity is in daily practice as a preliminary discussion this essay will analyse the responsibilities of both ci agents and sy officers in order to clarify similarities and differences arguing that the practice of counterintelligence is not

simply an extension of the sy officer s one although there are some common duties secondly it will illustrate how these differences apply to different organizations by presenting examples of state cia and non state ira actors finally it will be argued that the division of responsibilities between ci practitioners and sy officers lies with the nature of the organization considered as it appears clearly defined in the state actors whereas it assumes different forms in the non state actors
